### S. F. LEDDELL,

ROOM 202, PALLADIO BUILDING, DULUTH

### RENOUNCES THE WORLD.

Miss Drexel, heiress of millions, becomes a nun. Her father, Mr. Drexel, of Philadelphia, banker and millionaire, took today the final vows which make her for life a sister of the Roman Catholic church. The solemn and impressive ceremony took place in the chapel of the convent of the Sisters of Mercy in this city, in which institution Miss Drexel has served her novitiate for a year and a half.

### AND IN THE HOUSE TOMORROW.

Many Duluth and West Duluth People Before the Committee Today; Taxing Mines.

St. Paul, Feb. 12.—Both branches of the state legislature met this morning for a discussion of the important question of city charter annexation, and whether else may be determined upon. The report will be heard tomorrow.

There appears to be a little more talk of a compromise on 1895. West Duluth's idea, then formerly, and if not, then the annexing of Onota to Duluth and a separate city of West Duluth. It really seems as if the West Duluth fellows had the soft side of the plank, but will be the final report tomorrow.

Among the Duluth and West Duluth delegates are Mayor Davis, J. B. Sullivan, City Attorney S. D. Allen, T. W. Hugo, S. A. Thompson, L. Merritt, C. C. Tear, J. C. Hunter, J. D. Ray, M. O. Hall, O. S. Simonds, R. S. Munger, Capt. Harry, Martin Wheeler, Judge Devore, Mr. Thomas, Monroe Nicholls, C. H. Clague, Judge Stearns and others.

The senate committee on taxes and tax laws meets tonight to give mine owners a hearing. A large number of iron men are in town and will be present. The bill under consideration proposes to repeal the present special laws and to place mines on the same footing as other property. The committee seems favorable to the repeal. It is probable that a large legislative delegation will visit Duluth before these local matters are settled. The argument is made that companies organized under the old law, should not, and could not, be made to pay a different tax from that the law imposed when they were organized.

### ONEOTA'S IDEA.

What Officers of the Meabi Road Say Will Result From Joining West.

Said N. B. Merritt to The Herald today: "Oneota is kicking vigorously against the proposed annexation to West Duluth as a separate city organization and she has good cause to do so."

We have been paying in a good round amount of taxes every year to West Duluth and we have nothing to show for it. There are those who work down there. They only run that institution as an election scheme. Just before elections they fill it up with men so as to control the balance of power in city elections.

Their whole scheme is to keep West Duluth out of Duluth so that they can control the controlling spirit down there can collar all the valuable franchises. Now for instance the Duluth, Meabi & Northern road has had property purchased for some time for terminals at Onota, but with the present have-it-all policy of West Duluth it looks as if the terminals might go to West Superior.

We already possess the franchise of the Superior Belt Line Railway company, which will run from Duluth to Onota. We have also been offered the use of one of the best docks and alpine on the Superior side to locate our docks.

"The Duluth Meabi & Northern road will run direct to the Mountain Iron Company's property and a million tons of ore can be shipped without much difficulty on this range without much difficulty. To show you how the stock of Meabi Iron properties has gone up it is only necessary to state that \$10,000 worth of stock in the Mountain Iron Company property which three months ago was worth ten cents on the dollar sold yesterday for \$1000 cash."

"I tell you the people of Onota are anxious to have improvements made and to keep the terminals of the road on the side. We got ninety-five signers out of the possible 100 to our petition for an act annexing us to Duluth. His only argument is that Duluth would not condemn property to connect Grand avenue with Third street, but how could she do this to accommodate hostile village organizations. I notice that certain directors in the West Duluth Land company are purchasing property in Onota and view the fact with a good deal of suspicion."

"I know positively that West Superior has a lobby in the legislature of Minnesota working against annexation and the West Superior people laugh at our faces when we go over there stating that we will never annex West Duluth."

### TERRIBLE BOILER EXPLOSION.

Many Employees Killed in a Quebec Worst Case.

QUEBEC, Feb. 12.—About 9:30 this morning the boiler in the Quebec Worst case company's factory at Hair point exploded, completely demolishing the engine house and half of the factory. A large number of hands were buried in the ruins. The work of rescue was immediately begun, and up to this hour, noon, thirty bodies have been recovered. The explosion was a terrible one, and it is hard to understand how such a catastrophe could have taken place from properly inspected boilers. The damage is heavy and as yet cannot be estimated.

### President Norton Resigns.

New York, Feb. 12.—President Eckstein Norton, of the Louisville & Nashville road has resigned and his resignation has been accepted by the directors. It is thought to mean a change in policy.

### A Pleasant Defeat.

Ayer, Mass., Feb. 12.—President Harlow of North Middlesex institution for savings, whose doors were closed yesterday, said this morning that the deficit occasioned by Cashier Spalding's peculiar business transactions will reach \$25,000.

### REMEMBERING OLD ABE.

His Birthday a Holiday in Many Parts of the Union.

### NEW YORK'S REPUBLICAN CLUB.

McKinley to Address the Ohio League on Political Matters; a Sensation Expected.

CHICAGO, Feb. 12.—Were Abraham Lincoln alive today he would be celebrating his eighty-second birthday. It was Feb. 12, 1809, that the babe that was destined to become the great emancipator first saw the light in Hardin county, Kentucky, and it is seventy-four years Monday next since as a boy of 8 years of age, he started with his parents to take up his abode in that portion of the wilderness of Indiana, that is now known as Spencer county.

Today the birthday of "Old Abe" will be appropriately celebrated in many parts of the country. In this city there will be a public celebration at Central Music hall, the exercises including readings, appropriate selections from his writings and an oration by Hon. George Briggs. The Marquette club will observe the day this evening by a banquet at the Grand Pacific hotel when the toast to the memory of the ex-President will be drunk in solemn silence. A number of men noted in the public life of the nation will respond to the toasts. Warner Miller, of New York, will speak upon "The Republic and the Future." Senator Cullom will respond to the toast of "Abraham Lincoln" and George Alfred Townsend (Gath) will speak. Mayor Harrison, J. P. Doliver, the young republican orator of Iowa, will also deliver addresses. Covers will be laid for 300 guests.

The Methodist Social Union celebrates the event with a banquet at the Palmer house, the Rev. Dr. J. T. Tifany, of Minneapolis, being the orator.

### The Day in New York.

New York, Feb. 12.—Great preparations have been made for the banquet to be given by the Republican club of New York at Delmonico's tonight in honor of the anniversary of the birth of the late President Lincoln.

The venerable Hannibal Hamlin, ex-vice-president of the United States, will respond to the toast, "The Surviving Standard Bearer of 1860." The congressman from Illinois, will speak of the "Republican Party." Senator Sherman will speak of "The Franchise." Senator W. F. Sanders of Indiana will speak upon "The Duties, Washington, Montana and Wyoming, the Flag, the New Stars." Hon. John M. Thurston will deal with "The Young Men of the Country." They Rightfully Belong With the Republic." Rev. H. L. Wayland, of Philadelphia, will speak of "Abraham Lincoln." Hon. Henry C. Robinson, of Connecticut, upon "The American Scholar."

Lafayette camp of the division of New York Sons of Veterans will observe the day by a banquet this afternoon at the Hotel Brunswick. Among those in the list of speakers in response to the toast is Gen. Wheelock V. Vessey, commander-in-chief of the Grand Army of the Republic, Rev. John E. Paxton, of the Lehigh valley, and Hon. Henry C. Robinson, of Connecticut, upon "The American Scholar."

Lafayette camp of the division of New York Sons of Veterans will observe the day by a banquet this afternoon at the Hotel Brunswick. Among those in the list of speakers in response to the toast is Gen. Wheelock V. Vessey, commander-in-chief of the Grand Army of the Republic, Rev. John E. Paxton, of the Lehigh valley, and Hon. Henry C. Robinson, of Connecticut, upon "The American Scholar."

Lafayette camp of the division of New York Sons of Veterans will observe the day by a banquet this afternoon at the Hotel Brunswick. Among those in the list of speakers in response to the toast is Gen. Wheelock V. Vessey, commander-in-chief of the Grand Army of the Republic, Rev. John E. Paxton, of the Lehigh valley, and Hon. Henry C. Robinson, of Connecticut, upon "The American Scholar."

### McKinley Will Speak.

TOLSON, Ohio, Feb. 12.—Particular significance attaches to the banquet which takes place tonight in celebration of this morning's "Washington, Montana and Wyoming, the Flag, the New Stars." Hon. John M. Thurston will deal with "The Young Men of the Country." They Rightfully Belong With the Republic." Rev. H. L. Wayland, of Philadelphia, will speak of "Abraham Lincoln." Hon. Henry C. Robinson, of Connecticut, upon "The American Scholar."

Lafayette camp of the division of New York Sons of Veterans will observe the day by a banquet this afternoon at the Hotel Brunswick. Among those in the list of speakers in response to the toast is Gen. Wheelock V. Vessey, commander-in-chief of the Grand Army of the Republic, Rev. John E. Paxton, of the Lehigh valley, and Hon. Henry C. Robinson, of Connecticut, upon "The American Scholar."

### SHERMAN FAILING.

The Old Warrior on the Retreat for the First Time.

New York, Feb. 12.—Gen. William Sherman, for the first time in his eventful life, is in retreat. The last old soldier is heroically battling with the grim old warrior, who knows no defeat, at times retreating, then advancing—the retreat at one time yesterday causing the report of his death to be sent over the country—with the sublime courage of a leader, went to conquer, but gradually and inevitably yielding to his enemy's superior prowess.

The coign of vantage will never be regained. Now by the surety of the victor of many a well-fought field is being driven back, and his army is being cut to pieces. He is suffering from mucus of the lungs and is probably being smothered. His breathing is very labored. The symptoms, though, for some time, telling him that he is in danger, such as to give faint hope of Gen. Sherman's recovery.

### An Affront to Miles.

WASHINGTON, Feb. 12.—The President and Secretary Proctor have sustained Col. Forsythe's management at the Wounded Knee engagement, contrary to the advice of Gen. Miles. "There is but little said concerning the matter by Miles' intimate friends, but they regard it as a personal affront."

Pure cod liver oil of my own importation direct from Norway, for sale at C. J. Tuffe's drug store, 1805 West Superior street, Duluth, Minn.

### INCREASES DRUNKENNESS.

Bostonians to Secure the Repeal of the Law Prohibiting Bars.

Boston, Feb. 12.—Bostonians, who are sick of taking their cocktails while sitting, and who want a restoration of the good old times when men could "line up" at the bar and take their drinks standing, decided to the great room at the state house today to air their grievances and improve legislation that shall establish the public bar.

Some surprising facts were presented in support of the petition for the repeal of the law forbidding the use of bars. Evidence was produced that under the present system, which has been in vogue in Boston the last year, the amount of liquor and beer consumed has increased from 10 to 20 per cent. Again, a large number of men who go into saloons under the new system stay longer and drink more; whereas, if they had been subjected to the discomfort of standing, they would have gone out at once. The social and trading system has been made more prominent, too, simply from the fact that the longer you stay in a place the more chance you have of meeting acquaintances.

There is still another and greater objection, and that is that the time consumed by drinkers induces them to make a sort of club room out of the saloon frequent. There are some of those who are seduced by the warmth and comfort of their surroundings to indulge in an amount of drink that often leads them to the point of intoxication. The result of the sitting-down system is that it is not only more difficult to detect the tendency to intoxication in the individual but it is more difficult to detect the saloon in neatness and order.

As to the financial results upon the liquor dealers, some have found their business decreasing, while others find it augmented. There is little doubt that the obnoxious law will be repealed.

### INGERSOLL AND DONNELLY.

They Will Discuss the Authority of Shakespeare's Plays.

MINNEAPOLIS, Feb. 12.—The recent visit to Minneapolis of Col. R. G. Ingersoll, on his way to Helena, Mont., where he went to act as counsel for the heirs in the great Davis will case, suggested the idea of a joint discussion between himself and Ignatius Donnelly as to who wrote the plays of Shakespeare. Both are great Shakespearean scholars who hold opposite views as to the authorship of the plays.

Mr. Donnelly was consulted and readily consented to meet Col. Ingersoll, and J. M. Bennett left last Friday to see the latter gentleman. He returned last evening having accompanied Col. Ingersoll and his wife who are going back East. Col. Ingersoll readily agreed to come and will name the date in a few days. He only specified that each speaker should have a right to himself, so that he can have plenty of time in which to collect his ideas and reasons, so the argument will probably be made that Ingersoll will speak the first night, and will be followed by Donnelly the second night.

### English Labor Inquiries.

LONDON, Feb. 12.—In parliament today Mr. Bauman asked the board of trade to send a delegate to America to inquire into the working of laws relating to the hours of labor and to report thereon. The several labor bills before parliament necessitate the collection of statistics on this subject and it is probable that similar delegates will be dispatched to other countries on a like mission.

### Dillon and O'Brien Surrender.

LONDON, Feb. 12.—John Dillon and William O'Brien arrived in Folkestone this afternoon from Boulogne and will proceed directly here to give themselves up to the authorities. Both have avowed their willingness to serve out their terms of six months imprisonment.

### Resurrection in North Dakota.

BISMARCK, N. D., Feb. 12.—After a fierce fight in the house yesterday the high house men won and the proposition to renege the prohibition question was carried—32 to 23. It is believed that the measure will pass immediately. In the event that it passes, there is, however, still a possibility that Gov. Burke will veto it, but if he does not, and the whisky element wins, it ought not to take effect until the expiration of a certain term of years when prohibition will have time to be given a fair trial.

### WESTERN ASSOCIATION.

Baseball All-Absorbing Topic at the Auditorium.

CHICAGO, Feb. 12.—A meeting of the Western Baseball association for the purpose of revising its constitution, adopting the schedule for the season of 1901 and considering questions affecting its membership and circuit opened at the Auditorium hotel this morning with closed doors. President L. C. Krampholtz was in the chair. The probabilities are that Sioux City and Lincoln will be dropped and their places in the Western league filled with Indianapolis and Grand Rapids. This at least is President Krampholtz's program.

Indianapolis is willing to pay for the Sioux City franchise, while Dave Rowe owns the Lincoln team franchise and will, if offered a fair sum, be ready to remove the entire club to Grand Rapids. Talks with the delegates this morning indicate that the reorganized association will be composed of Milwaukee, St. Paul, Indianapolis, Minneapolis, Kansas City, Omaha, Denver and Grand Rapids.

### Blaine's Denial.

WASHINGTON, Feb. 12.—Secretary Blaine emphatically gives the lie to the statement telegraphed from Canada to the effect that he had written a letter to the Hon. Wilfred Laurier saying that he would negotiate for reciprocity only with the liberal party. He says that he has written no such letter, and, moreover, that he has not written to anyone in Canada on the subject of reciprocity since he became secretary two years ago, beyond the note to Mr. Baker.

### Sioux Chiefs at Carlisle.

WASHINGTON, Feb. 12.—The conference with the Sioux Indians ended yesterday and they will be returned probably today. On the way they will visit the Indian school at Carlisle, Pa., the object being to acquaint them with the objects and methods of the institution and thus remove as far as possible any prejudice they may have against the education of Indian children.

### Sheephead Postmaster Demops.

SHEEPSHEAD BAY, N. Y., Feb. 12.—W. W. Tredwell, postmaster at Sheephead Bay, has demopsed. He is known to have broken open registered letters, and has not settled with the department for some time.

### Wealthy Heirs.

MUNICH, IND., Feb. 12.—Mrs. Silas Covall has been notified that she is the heir to the Anneke Jans estate, in a heart of New York city, valued at \$200,000,000. She with other heirs will meet in that city in a few days to receive the title of the property.

### TWO IRON COMPANIES.

One of Them Has a Shaft Into Solid, Clean Ore.

### BOTH FOR WORK ON MESABI RANGE.

The Myrna Has Been at Work Some Time; Other Local News.

The Myrna Iron Co. will file articles today or tomorrow. The incorporators are A. J. Trimble, Frank Hitting, Thomas Pressnell, R. D. Mallet and Frank L. Tedford. The capital is placed at \$200,000. They already have a shaft down twenty-three feet on their property, four feet of which is in clear ore of the hematite variety. Their property consists of the  $\frac{1}{4}$   $\frac{1}{4}$   $\frac{1}{4}$  section 11, and  $\frac{1}{4}$  of  $\frac{1}{4}$  section 2-3-14, 100 acres in all.

The Stowell Iron Company will file articles today or tomorrow. The capital stock of \$1,000,000 divided into shares of ten dollars each. The officers and incorporators are: president, W. H. H. Stowell; vice-president, T. H. Pressnell; secretary, B. E. Baker; treasurer, A. C. Jamison and Geo. F. Long, S. F. Boyce, Frank L. Tedford, Jacob Zimmerman and Lannes W. Hizar. Their property consists of 900 acres in section 16-30-14. The work of active development will commence within thirty days. The highest amount of indebtedness allowed to the company is \$10,000. The main shaft being sunk at the Mallman mine is now down 80 feet, 10 of which is in clear ore. They are following the dip.

### HILL AND GROVER.

They Are the Very Chummiest of Friends.

New York, Feb. 12.—In an interview in the Herald, Governor Hill and Cleveland says: "Governor Hill and I have, ever since I left the New York gubernatorial chair, been on the very best of terms. Every time I have been to Albany or passed through the city, I have called on Hill. Why should we not be on cordial terms? The evening of the much talked of dinner, Governor Hill was visiting the armory in this city and he came of his own free will. No, we had no private conversation."

"The report that the President would call a special session of the senate immediately after the adjournment of congress has caused a flutter in New York political circles because of the bearing it will have on the future movements of Mr. Hill. When he accepted the senatorship he did not, it is said, expect to leave his present office of governor until next December. If the senate meets in special session, however, Hill will be compelled to go to Washington. He will then take his seat as senator next month and take his seat as senator from New York. How far this will interfere with Governor Hill's duties, we cannot say. "I should not be surprised," said a leading republican, "if Mr. Platt had asked Mr. Harrison to call an extra session with a view of getting rid of Hill. There is really no occasion for an extra session of the senate to consider any public matter. But Governor Hill is a serious stumbling block in the road to republican success in this state, as we know by experience. As long as Hill remains at the helm, we cannot win. Mr. Harrison is shrewd enough politician to improve the opportunity, and you can rest assured that he will be an extra session of the Senate at Washington next month."

### Will Stick to Ogleby.

SPRINGFIELD, Ill., Feb. 12.—At a meeting of the steering committee it was decided that, while the republicans may vote for several different candidates, the final ballot shall be for Ogleby. There are a dozen more republican names in the clear under no circumstances will they support anyone but a stalwart republican.

### Did It for a Joke.

WASHINGTON, Feb. 12.—Senator Pierce yesterday recommended Tom Lowry, of Minneapolis, as secretary of the treasury. Lowry and the senator are good friends, and the latter says that if the President wants a good business man he would find him in Lowry. Senator Washburn, when the matter was mentioned, laughed and said Pierce did it, he guessed, for a joke.

### Treasurer Liberty Lovers.

MADRID, Feb. 12.—The meeting of republicans took place in a theater last night. The building was crowded with people, who applauded the orators who enthusiastically advocated the establishment of a Spanish republic.

### Masquerade Dance.

HOTSPRING, Mich., Feb. 12.—Those who were burned at the masquerade last evening are recovering. Otto Krelwitz, the masker whose costume first caught fire, and who caused the panic by rushing among the other maskers, is seriously burned, but will recover.

## MILLS FOR ANTIPODES.

A Timber Man From the South Pacific Buys in Duluth.

## WORK OF THE MARINETTE COMPANY.

It Already Has Orders for the Duluth Shops for Seventeen Saw Mills.

T. H. White, general manager of the Kaari Timber company, of Sydney and Melbourne, Australia, with a capital of \$6,250,000, has been in the city a day or two. The company cuts most of its lumber in New Zealand, where the logs average from five to six feet in diameter and where the pine is much clearer and somewhat harder than ours. The trees average 100 feet high in the clear before knots are reached.

"The lumber," said Mr. White, "is suited for all the finest joining and cabinet work and is used all over Europe and the colonies for all kinds of purposes from cabinet work down to shipbuilding. It is used very extensively in English shipbuilding. The Kaari company has twenty mills in operation which cut 10,000,000 feet weekly or about 220,000,000 feet annually. The company also manufactures shingles, ash, doors, blinds and cabinet work of all descriptions."

Mr. White continued: "I have just been through the great timber cutting country of the United States, west of here in Oregon, Washington and Minnesota. I have not visited Michigan and Wisconsin and find that America is truly the home of the manufacturer of lumber. I find that the saw mill machinery used here is much superior to that used by us. The band mills in use here are much superior, both in the cutting and the saving of time to anything now in use anywhere in the world. I was sent to this country to investigate the band mill, and I have come to the conclusion that the band mill is the best to use on the subject and ask for instructions to order two band mills. If I receive a favorable answer I shall order two mills, and if these work satisfactorily we will order twenty."

"All of these will be manufactured by your Marinette Iron works here in Duluth."

"As regards American machinery, I want to say that nearly all the wood-working machinery in use in the colonies comes from the United States. Australian people know a great deal more about America than they do about any outside country in the world, and they take a great interest in events transpiring here. This is due to the excellent class of consuls and other dignitaries which the United States government sends to the colonies. They are all a class of men which cannot be imposed upon. I must speak of one man in particular, J. D. Connelley, who is at Auckland. He is my ideal of what a consul should be in every respect. He is universally esteemed by the people of New Zealand and has the warmest of good feelings toward the United States among our people than any other cause could."

"We are closely connected with the United States by a line of subsidized steamers, which make the trip in twenty days, and have already established a good trade in the United States for our Kaari gum for varnish and wool. We also ship extensively to Europe our frozen mutton, lamb and other meats, and we export lumber, grain, hides, wool and minerals."

"Thirteen years ago I was in 'Frisco, where I staid for some time, but I was a native of New Zealand, and soon wandered back to my native land. I can scarcely account for the marvelous change which has taken place since that time in the West, and I perceive, to the great surprise and pleasure of the people, I have never been east of Chicago and will be unable during this trip to get further east. I have been treated altogether too hospitably while in the country. I have often had engines and whole trains put at my disposal in the West without its costing me a cent. The Americans are a very hospitable people."

## SEVENTEEN SAW MILLS.

West Duluth's New Concern Already Has Orders for That Number.

The Marinette Iron Works company has started in business here so quietly that but few realize what the concern is or will soon become. When the statement is made that the company now has orders for seventeen fully equipped band saw mills to be furnished by the new works here, and that new orders are coming in at the rate of two to three a week, some idea of the importance of the concern may be gathered.

The Marinette company now has on hand orders for a total of twenty-seven mills to be turned out early this year. Of these ten are being built at the old works at Marinette while the remainder will be made at the Duluth shops. Last night the company shipped its first completed machinery from here. Although much of the machinery ordered for the Duluth works has not yet arrived and none of that from Marinette has been brought here, about 180 men are now employed, and the machine shop is run day and night. When ready for full work the company will employ 500 to 600 men.

The saw mills now being built are to be shipped to all parts of the country, from Maine to Texas and from Washington and Oregon to Pennsylvania and the Carolinas. Indeed, the products of this company will carry the name of Duluth further than those of any works here. A company is formed in Australia which is trying to get the agency for that and all other South Pacific islands for the Marinette company's machinery, and it guarantees to give, as its first order, contracts for six large sawmills, besides other machinery. This concern is entirely distinct from the Kaari Timber company of Australia, for which Mr. White is in the city, and which alone may take twenty band mills. Inquiries have also been received from South American timber and lumber concerns who want Prescott mills.

## REAL ESTATE.

A Record of the Real Estate Transfers for 24 Hours, Ending at Noon.

Furnished by the register of deeds.  
C. E. Dietzman to S. W. Olsen, fine lots 1 to 6, block 21, West End, \$1,000.  
B. F. Dodge to W. O. Howell, lot 1 and 2, block 5, Dodge, \$1,000.  
J. C. Krause to C. A. Krause, lot 49, block 1, Third street, Dodge, \$1,000.  
E. J. Lloyd to Peter Halbach, lots 1 and 2, block 29, West End, \$1,000.  
H. W. Coffin to Jacob Koff, in \$2,000.  
J. C. Hunter to E. F. Smith, lot 1, block 34, Hunter & Markels Grassy Point, \$1,000.  
J. Anderson to Chas. E. Smith, lot 1, block 109, Duluth Proper, second, \$1,000.  
Chas. Mark to A. K. Kerkela, lot 1, block 2, West Duluth, fourth, \$1,000.  
B. F. Dodge to W. O. Howell, lots 1 to 3, block 4, etc. Dodge, \$1,000.  
9 transfers: total consideration, \$13,250.

## WEST DULUTH.

The West Duluth Union band will give a social dance at their hall Friday evening.

Miss Maud Stephens is clerking in M. L. McMillan's real estate office.

The Duluth, Mead & Northern railway has filed articles of incorporation.

The capital stock is fixed at \$5,000,000, and the indebtedness limited to the same amount. Its existence will begin March 2.

The incorporators and directors are: K. D. Chase, of Portland, president; Leonida Merritt, of West Duluth, vice president; S. R. Payne, of Duluth, secretary; C. C. Merritt, of West Duluth, treasurer; Rowell H. Palmer, of Duluth; A. R. Merritt, Alfred Merritt and N. B. Merritt, of West Duluth.

The stock is divided into 50,000 shares of \$100 each. It is a reorganization of the Lake Superior & Northwestern road.

The Des Moines Method.

How the Aldermen of That City Treat the Corporations.

Des Moines, Iowa, Feb. 12.—The city council recently came to the conclusion that Des Moines was paying too much for telephone service.

They were very angry, however. They did not send at once to the manager and demand lower rates, but waited until the company asked a favor.

Professor Slaum gives another of his popular socials tomorrow evening. These socials are becoming a brilliant feature with our young society people.

The Duluth Sleighing club gave a party last evening at the Phillips hotel. About a dozen couples were present, and after supper were served the floor was cleared and the light fantastic tripped until nearly daylight.

Warrell Clarkson is celebrating his twenty-first birthday today, and as a reminder of the occasion is the recipient of a handsome intaglio ring from his parents in Wilmington, Del.

Admission Room.

The school trustees have rented a building on Central avenue and First street north and will fit it up for an additional school room to accommodate 100 pupils.

It was the desire of the trustees to secure a room on Grand avenue so that the little children would not have to cross the tracks to go to school.

About one-sixth of West Duluth's population is attending the public schools and the per cent of attendance is higher than in any other town at the head of the lakes.

A Junior Bible Club.

Tomorrow afternoon at 4 o'clock there will be organized at the Presbyterian church by the pastor a "Junior Bible club" of young people 8 to 17 years of age.

The object of the society is to pursue a course of outline inductive Bible studies according to the new methods of the American Institute of Sacred Literature, of which Professor R. Harper, of Yale, president of the course will cover the Bible in five years.

The studies are outlines of events or groups of events. They are instructive in that the facts will be considered first and then the purposes. Rev. G. A. Brandt will lead and will be assisted by Miss Neil Currie, J. C. Edmondson and Mrs. Brandt.

Other features of the work will be mission studies and singing. As many will be welcomed as will come.

There will be a gathering of G. A. R. ladies tomorrow afternoon with Mrs. A. G. Rand to organize a Womans Relief corps.

Money loaned on personal property at room 12, Silver block, West Duluth, Minn.

A nice eight-room house on Third avenue west. Apply to G. F. Danforth, steam laundry, West Duluth.

WEST END.

Have we a fire bug among us? At 3 o'clock this morning fire was discovered bursting from the ruins of yesterday's fire.

It would hardly seem possible that fire could have been smoldering for sixteen hours after such a dressing as the department gave it yesterday morning. This morning's fire completed the wreck, besides it damaged the building next to it, which also belongs to Keen.

There is much satisfaction expressed among the creditors of T. O. Hall at the appointment of E. G. Swanstrom as receiver in the place of Mr. Nelson, as signed.

A NEW COAST TOWN.

Such will be started by the American Steel Barge Company.

The question of a new Pacific coast shipyard for the American Steel Barge company is said to be settled, and Capt. McDougall and Wilson will be home in a few days to make arrangements for it.

The location of the yard, which is expected to employ 100 men, and to result in the establishment of iron and steel industries near by, is quite naturally not yet a secret, but it may be said that it will be near Tacoma on the tracks of land bought some time ago by Rockefeller and others interested in the company.

The new yard will cost about a million dollars and will be so fitted that it can turn out a completed vessel in fifteen or sixteen days should there seem to be demand for such a fleet. Coastwise trade on the coast is very profitable and the company may be expected to get it can of it. It is also stated that the Northern Pacific has in mind a fleet of Pacific steamships, and that these will likely be built by the company in which so much Northern Pacific money is engaged.

## DULUTH EVENING HERALD: THURSDAY, FEBRUARY 12, 1891.

Changed its Name.

The Duluth, Mead & Northern railway has filed articles of incorporation.

The capital stock is fixed at \$5,000,000, and the indebtedness limited to the same amount. Its existence will begin March 2.

The incorporators and directors are: K. D. Chase, of Portland, president; Leonida Merritt, of West Duluth, vice president; S. R. Payne, of Duluth, secretary; C. C. Merritt, of West Duluth, treasurer; Rowell H. Palmer, of Duluth; A. R. Merritt, Alfred Merritt and N. B. Merritt, of West Duluth.

The stock is divided into 50,000 shares of \$100 each. It is a reorganization of the Lake Superior & Northwestern road.

The Des Moines Method.

How the Aldermen of That City Treat the Corporations.

Des Moines, Iowa, Feb. 12.—The city council recently came to the conclusion that Des Moines was paying too much for telephone service.

They were very angry, however. They did not send at once to the manager and demand lower rates, but waited until the company asked a favor.

Professor Slaum gives another of his popular socials tomorrow evening. These socials are becoming a brilliant feature with our young society people.

The Duluth Sleighing club gave a party last evening at the Phillips hotel. About a dozen couples were present, and after supper were served the floor was cleared and the light fantastic tripped until nearly daylight.

Warrell Clarkson is celebrating his twenty-first birthday today, and as a reminder of the occasion is the recipient of a handsome intaglio ring from his parents in Wilmington, Del.

## WORLD OF COMMERCE

Cash Wheat and Futures on the Duluth Market.

## MONEY MARKETS IN THE EAST.

Leading Speculative Commodities in All the Leading Markets of the World.

First sales in May wheat were made at unchanged figures from yesterday. First sales in February at 1/4c off for No. 1 hard and 1/4c off for No. 1 northern. Prices in May wheat ruled very steady in the forenoon at unchanged figures from the opening with a fair demand. There were but few sales in wheat on track in the afternoon session. Some trading of February to May at 50c premium per bushel on the latter.

There was a good demand throughout the session for May wheat in small quantities. No. 1 hard wheat sold at 90 1/4c, and closed at the same figure with bids. May No. 1 northern ruled the most active of any of the futures. It opened at 89 1/4c with a sale, and sold steadily at that figure up to the close with a transfer of a lot of 20,000 bu. The close was at the same figure with bids. February wheat sold early in the forenoon at 89 1/4c, and closed at 89 1/4c. February No. 1 northern opened with a sale at 91 1/4c and stiffened up in the afternoon 1/4c, closing at 91 1/4c. There was no trading done in cash wheat in store, which closed steadily at yesterday's figures. Wheat on track sold steadily at 89 1/4c for No. 1 northern grade.

The closing prices were as follows:

No. 1 hard	No. 1 northern	No. 2 northern	No. 3 northern
89 1/4	91 1/4	87 1/4	85 1/4

Cash on track: Wheat, 31c last year, wheat, 30c. Receipts: Wheat, 24,162 bu. Inspection: Cars No. 1 hard, 14; No. 1 northern, 35; No. 2 northern, 25; no grade, 1, total, 52.

## Lewis &amp; Bill's Report.

Chicago, Feb. 12.—Walker & Co.'s today's letter is as follows: Today has been dull and featureless in wheat, and trading has been confined to pit scalpers and Hutchinsons. News of the wheat and the bear side and the crowd followed it, while Hutz took the other track and the market at the close shows a fraction over the opening prices.

The Cincinnati Price Current says: Reserves are light, while the prospects for 1901 are fine. Cables are quiet and unchanged. Receipts are fairly large. The immediate future of wheat at strong, while for the long run the bear side is ahead, as the prospects are so good and the weather we are having could not be better for the 1901 crop.

Corn was very dull, receipts fair. This has been bulled to death and it will take considerable buying to keep prices up. Provisions were lower early, but towards the close picked up on scalpers covering on expectation of lighter receipts of hogs tomorrow.

Reported by Lewis &amp; Bill, commission merchants and stock brokers, Phoenix building.

## Minnesota Wheat.

MINNEAPOLIS, Feb. 12.—Closing quotations: No. 1 hard February, 94c; on track, 94 1/2c; No. 1 northern February, 92c; March, 92c; May, 94 1/2c; on track, 95c; No. 2 northern February, 90c; on track, 90 1/2c; July, closed at 90c.

## New York Exports.

CHICAGO, Feb. 12.—Today 10,000 bushels of flour and 32,226 bushels of wheat were sent out of New York for English markets.

Following is the close: Wheat, steady; No. 2 cash, 94 1/2c; May, 97 1/2c; July, 93 1/2c; Corn: Steady; cash, 20 1/2c; March, 21 1/2c; May, 22 1/2c; July, 22 1/2c.

## Duluth Bank Clearings.

Bank clearings for the week ending today were \$1,801,874.12, for the same week last year they were \$1,513,484.91.

## Clan Stewart, No. 30, O. S. C.

All members of Clan Stewart will meet at moot room in Hayes block at 7:30 Friday evening, Feb. 13, to proceed in a body to the Bethel to attend Professor Dowd's illustrated lecture on Scotland.

## A. S. Wilson, Cincin.

To be Robbed of Health  
By a pestilential climate, by a vocation entailing constant exposure, physical overwork or sedentary drudgery at a desk is a hard lot. Yet many persons are originally possessed of a fair constitution suffer this deprivation before the meridian of life is passed. To any and all no purer or more agreeable preservative of the greatest of earthly blessings can be recommended, than Hostetter's Stomach Bitters, which cures the system to climatic change, physical fatigue and mental exhaustion. It eradicates dyspepsia, the bane of sedentary brain workers, preserves and restores regularity of the bowels and liver when disordered from any cause, annihilates fever and ague and prevents it, checks the growth of a tendency to rheumatism and gout and neutralizes the danger to be apprehended from causes productive of kidney, bladder and urinary ailments. To be convinced of the truth of these statements it is only necessary to give this sterling preparation an impartial trial.

Highest of all in Leavening Power.—U. S. Gov't Report, Aug. 17, 1899.

# Royal Baking Powder

ABSOLUTELY PURE

## A SITE.

Site and Money Offered for Another Large Flour Mill for Duluth. It Probably Will be Built.

A. M. Miller has made liberal terms to outside city millers for a site for a flour mill of 3000 barrels daily capacity, to be erected this side of elevator D on property owned by him. There is a probability that it will be accepted.

## AN AUTHOR'S RECEPTION.

An Elaborate Reception For the Benefit of the Y. M. C. A.

An author's reception will be given on Friday evening at the parlors of the congregational church for the benefit of the Y. M. C. A. and under the auspices of the ladies' auxiliary. The following authors will be represented by charming talks from a few of their works: Shakespeare, Dickens, Thackeray, Irving, Scott, Longfellow, Tennyson, Whittier, Burns, Holmes, Geo. Eliot, Corvantes, Bellamy, Marietta, Holly, Goos, Shilbier. Characters from these will be personified by the following ladies and gentlemen: Madames d'Autremont, R. C. Ray, J. D. Ray, W. S. Woodbridge, Spences, Diawoodie, Davy, Wiggins, McConaughy, A. W. Bradley and Harris; Misses Munger, Burbank, Woney, Tyler, Scott, Goudie, Hopkins and Moore; Messrs. McConaughy, N. J. Upham, Frank Upham, Zeller, Brice, Spencer, Peck, Gray, Donald, Woodbury, Finckel, D. E. Woodbridge, W. S. Woodbridge, Judge Morris, Ames, Hawkes, Eldridge, Long, Long, Sawyer, Moore, Luxon; Rev. E. J. Noves, Master of ceremonies. There will also be excellent music, and refreshments served during the latter part of the evening.

Admission, fifty cents. Doors open at 7:30 and introduction of characters promptly at 8.

## CITY BRIEFS

The city ticket agents of all the railroad lines running into Duluth have signed a written agreement to close their offices on and after Feb. 15 at 6 p. m. The depot ticket offices, however, will be open as usual.

The following variations in temperature were recorded at Pioneer Fuel company's office, Hotel St. Louis, 329 Superior street: 12 m. 13° above; 3 p. m. 10° above; 6 p. m. 20° above; 9 p. m. 21° above; 7 a. m. 22° above; 9 a. m. 23° above; 12 m. 25° above. Maximum, 25° above; minimum, 13° above; daily range, 12°.

The Father Mathew Dramatic club held a meeting last evening and decided to present the "Shamrock and Rose" on St. Patrick's day and the following night.

A permit is issued to T. V. Hoopes for the repair of the house on Superior street, between Fifth and Sixth avenues, which was partially burned last week. The repairs will cost \$300.

Frank Woodward, at one time a Duluth newspaper reporter, has just created a sensation in the Illinois senatorial deadlock by writing letters to the alliance members making intimations of a price they might obtain for their votes.

## PERSONAL.

H. G. Crafts returned yesterday after a two week's visit to Cleveland. Charles L. Lewis, a prominent lawyer of Fergus Falls and ex-county attorney of Otter Tail, was in the city yesterday. Mr. Lewis has made arrangements to remove to this city and engage in the law business about March 1.

General Manager Plough, of the St. Paul & Duluth, has returned from California.

Capt. Alex McDougall and wife and Capt. Thomas Wilson did not return last evening from the Pacific coast as expected, but will be here in a few days.

The family of C. Markell has just moved into the elegant residence on Second street and Fourth avenue east, which has been building for two years. Mr. Markell left last night for Philadelphia.

A. B. Daggett, formerly a resident of Duluth, some thirteen years ago, and who has been in the city for a day or two with the finest display in novelties in the line of silver fancy articles and utensils which has ever been brought to Duluth. He represents the Derby Silver company of Connecticut.

Mrs. Watt, of Lakeside, is recovering from her recent illness.

Dr. O. F. George has returned from Kansas City, where he has been since the holidays.

Rev. O. Vagnild, of Brainerd, and Rev. B. B. Haugen, of Fergus Falls, are stopping with L. M. Hanson, of 205 Eleventh avenue west.

W. W. Bill returned to the city yesterday.

Dr. J. H. Howes left for New York last evening to close a contract with a chair factory which he hopes to get to locate at Grand Rapids.

Sudge Stearns went down to St. Paul last evening to attend a meeting of the regents of the state university.

## Social Notes.

A very pleasant time was had last evening at the social given by the Onondaga Epworth league.

An entertainment under the auspices of the Sheaf Gatherers will be given in the Christian church Tuesday evening next.

The concert given Tuesday evening at the Bethel will be repeated Saturday evening at the Swedish mission church at the west end. The views to be exhibited are entirely different from those used at the first entertainment.

A surprise party was given last evening at the residence of Mr. and Mrs. John Byrnes on West Fifth street in honor of Miss Byrnes.

Miss Judd and Miss Thornton received their friends at the residence of Clarence E. Judd, Lester Park, on Monday evening. Progressive dildidwinks was much enjoyed by all present. Head prizes were won by Mr. Crosby and Miss Messenger; foot prizes by Mr. Fred Clark and Mrs. Storer.

## Nowhere to Put Them.

The Wade collection of government, scientific and other works has arrived at the public library—that is three cases of eight. The rest are so large that they cannot be taken up the stairs or put in the freight elevator. Before this collection can be made ready for use the board will be obliged to secure additional room, and will possibly make special temporary rooms for its scientific and theological works. The Wade books are of great value.

## STEELE GETS IT.

Hugh Steele, of Duluth, Gets the Ashland Harbor Contracts Today.

Hugh Steele captured both of the Ashland harbor government contracts today. The full amount of money to be expended under the appropriation is \$50,240. Of this \$30,240 goes for the breakwater and \$20,000 for a brush and stone dyke at Chequamegon point. The bids were eight and ranged from that of Morrison & McGregor at \$37 a foot to that of Steele at \$25.35.

Bids for the brush and stone work on Chequamegon point were five and ranged from that of Truiman & Cooper of Manitowish, \$11 per foot, to Steele's at \$23. Steele constructed the breakwater at Agate Bay and did last years work at Ashland.

## One and One are One.

The Father Mathew and the St. Thomas Dramatic clubs met at the association hall last evening and amalgamated. The association will be known under the former. The officers are as follows: General manager and director, R. R. James McDougall; president, James R. Grady; vice-president, Miss Tina Burns; secretary, George W. Lutz; treasurer, L. B. Weber; stage manager, M. J. Durkan.

## Folish Murderers.

MANQUETTE, Mich., Feb. 12.—The Poles who were arrested here last night for killing Michael Smith were examined today and committed. The murder grew out of a row in a boarding house where a number of Poles on the top floor grew hilarious to the annoyance of those below. Michael Smith and Mike Selka went up to stop them. They were set upon by Wlady Nawak and his son Wlodych. Smith was beaten to death and Selka probably fatally hurt.

## An Unlucky Engine.

OMAHA, Neb., Feb. 12.—A new Union Pacific engine, just out of the shops, jumped the track at the foot of Farnham street yesterday and fell over on its side, crushing and killing Jacob Jensen, the engineer, and severely injuring William Martin, a brakeman, and William Hayes, a switchman.

## Light Fingered Postal Clerk.

OGDEN, Utah, Feb. 12.—Receiving Clerk Nelson H. George, of the Ogden postoffice, has been arrested charged with having stolen a registered package containing \$3000. He has returned \$2000 as a result of the other embezzlements which have been systematically carried on during the past year.

## Guaranty Exposition Fund.

MINNEAPOLIS, Feb. 13.—The list of subscriptions to the guarantee fund of the Minneapolis and Exposition of 1903, Saturday night reached \$85,500. Since then subscriptions carry the amount to nearly \$90,000. The largest sum given, \$15,000, was by the Minneapolis Street Railway company.

Children Cry for Pitcher's Castoria.

## American Loan &amp; Trust Company

CAPITAL, \$500,000. Guaranty Fund, with State Auditor, \$100,000.

## LOANS.

Money at lowest rates on improved security. County, City and School Bonds purchased.

## TRUSTS.

This corporation acts as Executor, Administrator, Guardian or Trustee. Will be received for and kept safely without charge.

## DEPOSITS.

5 PER CENT interest allowed on six months deposits.

## DIRECTORS:

A. W. BRADLEY, A. B. CHAPIN, C. L. YACOB, E. L. BRADLEY, C. MARKELL, E. A. ELDER, F. B. MCKINLEY, W. M. OSBORNE, C. E. SHANNON, J. H. GIRDNER.

## THE NORTHWESTERN LINE.

C. ST. P. M. & O. R. Y.

Take this line between St. Paul, Minneapolis and Chicago, Duluth, Waburn, Ashland and all points on Lake Superior, and to Sioux City, Omaha, Kansas City, Denver, Spokane Falls, Portland, and all points west.

"The Northwestern Line," C. St. P. M. & O. Ry., will also take you to the wheat fields of Dakota and Minnesota, the corn fields of Iowa and Nebraska, to the Black Hills and the wonderful oil and coal bearing districts of Wyoming. No line is so well equipped for the passenger business, or gives more attention to the comfort and convenience of passengers than "The Northwestern Line," nor does any other line make so rapid and reliable connections East, North and Southwest. With tourists, land-seekers or immigrants in fact with all the traveling public, "The Northwestern Line" stands first.

For map folder showing the line and connections, call at 139 East Third street, St. Paul, 332 Hotel St. Louis block, Duluth, 13 Nicollet House, Minneapolis, or address T. W. TEASDALE, Gen'l Pass. Agt., St. Paul, or G. M. SMITH, Gen'l Agt., Duluth.

Sample of Dr. Miles' Nervine at Max Wirths, Cures Headache, Nervousness, Sleeplessness, Neuralgia, Fits, etc. 5

ORDER TO EXAMINE ACCOUNTS, ETC.—STATE OF MINNESOTA, COUNTY OF ST. LOUIS, ss.

In Probate Court, special term January 28th, 1901.

In the matter of the estate of Louis S. Allen, deceased.

On reading and filing the petition of Walter Van Hunt, administrator of the estate of Louis S. Allen, deceased, representing among other things, that he has fully administered said estate, and praying for a final account of the same, and for the appointment of a receiver of the residue of said estate to the parties entitled to the same.

It is ordered, that said account be examined, and notice be given to all persons interested, by publishing a copy of this order on Friday in each week for three successive weeks prior to said day of hearing, in the Duluth Evening Herald, a daily newspaper printed and published at Duluth, in said county.

Given at Duluth, the Twenty-eighth day of January, A. D. 1901.

By the court, PHINEAS AYER, Judge of Probate.

Jan. 30, Feb. 12.

## FURNITURE,

## CARPETS, DRAPERIES

## AND WINDOW SHADES.

FIRST-CLASS GOODS AT THE LOWEST PRICES.

An infallible test comparison is the only true measure of value, and by comparison only can the greatest purchasing power of a dollar be found. The largest stock of first-class FURNITURE AND CARPETS in Duluth is at our store. By first-class we mean neither the highest priced nor lowest priced, but goods of superior construction and finish in all grades. Not shoddy built goods, not fancy priced novelties, but desirable, sensible substantial FURNITURE. Get our competitors' prices—GET OUR PRICES. Make your comparisons and draw your own conclusions. RESULT: You will leave your order and dollars with us.

## EASY PAYMENTS.

Realizing that it will not always be convenient for some of our customers to pay cash down for goods purchased of our house, and while we do not intend to figure strictly as an installment house, which usually carries with it installment prices, we have arranged a method of easy payments, by which you can obtain goods on our one price cash price basis and thereby be enabled to furnish your homes in a comfortable and tasteful manner and pay for your goods as you would a building lot at Lakeside. This privilege we extend to dwellers in Superior or any of the surrounding towns.

## ANOTHER 'WHITECHAPEL'.

Jack the Ripper Gets Another Victim in London.

NEARLY THE SAME OLD TACTICS.

Terror Seizes the Population of the Section Abandoned but by Salvationists.

LONDON, Feb. 13.—A woman was found dead in the Whitechapel district this morning, and is supposed to have been murdered by the fiend known as "Jack the Ripper."

She is about 25 years of age and quite good looking, bearing, however, the undistinguishable marks of the class among whom "Jack the Ripper's" work has been done. She was found with her head nearly severed from her body.

The scene of this, possibly the latest of that fearful series of "Jack the Ripper's" crimes, is dark and narrow, a narrow way known as "Swallow's Garden" and leading from Little Mint street to numbers street. It is such a place as might naturally be selected for such crime, and is almost hidden from view or inspection. Nobody seems to have heard any unusual cries during the early hours of the morning, when the crime must have been committed.

The chief police theory is that the woman was murdered while standing, and that the murderer was frightened away by some approaching pedestrian before he had time to mutilate the body in the manner already described in previous crimes by the same person.

As might have been expected, the discovery of the murder this morning caused great excitement and consternation among the Whitechapel denizens. Their condition is pitiable. The comparative quiet which has reigned in that section for nearly a year past has given the inhabitants a feeling of security, and now that there is a repetition of the horrible events which have made Whitechapel famous the state of affairs beggars description. The police are on the alert as usual, but no expected any discoveries from that source since they have failed so repeatedly.

The salvation army has been doing good work in Whitechapel recently and the wants of many poor people have been attended to who otherwise would have suffered severely. It is said, too, that the army is reclaiming many of that class among whom the murders have been committed.

**TO STUDY SPIRITUALISM.**

And Test Its Truth or Falsity: A Notable Committee.

New York, Feb. 13.—A sensation was caused at the spiritualist meeting, when the president read a copy of a circular, which said he was being privately circulated among clergymen and others. The object of the circular, which is published in Boston, is in some degree indicated by its title, which is as follows: "Proceedings of the formation of the Psychical Investigation association, to be composed chiefly of ministers of all denominations, scientific experts, professional men and disciples of different schools of philosophy, co-operating for the scientific investigation of modern spiritualism."

The call is signed by Minot J. Savage, of Unity church, Boston; Edward A. Horton, of the Second congregational church, Boston; H. B. Newell, of All Souls' episcopal church, New York; Edward Everett Hale, of Boston; Mary A. Weston, of Newmarket, Mass.; B. O. Flower, editor of the Arena, and T. Ernest Allen, of the Fourth unitarian society, Providence. The attitude of the signers is thus declared:

"We propose to concentrate our efforts on the field of spiritualism. Is the movement founded on fact or delusion? Is it not time for a few truth-loving persons approaching the subject in a serious frame of mind to investigate it, guided by purely scientific methods? Is it not the best interest of humanity that this matter should be settled, if possible, once for all?"

The circular goes on to describe the purpose of the association to be the institution of a critical investigation of modern spiritualism, by using vigorously the scientific method.

**MENNONITES OF RUSSIA.**

The Hardships of a Christian Sect Under the Russian Yoke.

St. Petersburg, Feb. 13.—The Mennonites, as well as the Hebrews, are complaining of the severities of the government, and but for the obstacles to their emigration the whole body of them would probably go to America. They are a Christian sect, whose three chief tenets are to hold a baptismal doctrine, to be recognized by the orthodox Greek church, into which the government has tried to drive them.

The main trouble of the government with them grows out of their religious principle of non-resistance and their refusal to render military service. For a long time they were exempted from service by the decrees of the czars, but this privilege was withdrawn twenty years ago. They then obtained permission to leave Russia within a specified time. In 1873 they began to take advantage of it, and several thousands of them found refuge in America. The first colonies went as farmers to Kansas and Minnesota. The czar, seeing their determination, modified his order of conscription, and gave out orders that, in time of war, they should be required only to render service in the military hospitals.

Now again they are suffering hardships through the operation of the conscription law, and through their determination to bring them into the orthodox fold. If permission could be obtained for them to leave Russia they would follow their brethren.

**CLEVELAND AND HILL.**

How They Stand in the Legislatures of Twenty-seven States.

New York, Feb. 13.—Herald reporters all over the country yesterday asked the democratic members of the legislatures of the various state legislatures of the Union how they stood as between Cleveland and Hill for 1892, and telegraphed the result to a symposium in that paper today.

The poll resulted: Cleveland, 1515; Hill, 119; scattering, 276. The New York legislature, however, was markedly different and stood: Cleveland, 2; Hill, 31; doubtful, 47.

**We're All Socialists Now.**

GREENFIELD, Ill., Feb. 13.—Silas Davis, of this place, has fallen heir to an English estate valued at \$600,000. He is a farmer of this township.

## ADMIRAL PORTER DEAD.

The Aged Officer Passes Away Very Suddenly in Washington.

Washington, Feb. 13.—Admiral David D. Porter died this morning after a short illness.

David Dixon Porter first saw the light at Chester, Delaware county, Pa., June 8, 1813. He was educated at Columbia college, Washington, D. C., and when quite young accompanied his father in an expedition to suppress piracy in the West Indies. His first naval position was that of midshipman. He was promoted to lieutenant in 1831. He was in the Mediterranean and Brazilian waters until 1845 and in the following year attached to the naval observatory in Washington and sent on a secret mission to Haiti.

He served through the Mexican war but subsequently returned to the coast survey. At the opening of the civil war he was ordered to command the frigate Powhatan in the gulf blockading squadron and was with Farragut at New Orleans.

On July 1862 he was placed in command of the Mississippi squadron as acting rear admiral and received his commission as rear admiral in 1864. He was transferred to the North Atlantic squadron in 1864, promoted to the vice-admiralty July, 1865, and acted as superintendent in the United States naval academy till 1869. On Aug. 15, 1870, the rank of admiral was conferred upon him, and he held it until the time of his death.

**SAVED MANY LIVES.**

Frederic Jerome, the Hero of Many Shipwrecks, Highly Honored.

New York, Feb. 13.—A gray-headed old man from San Francisco is visiting this city for the first time in twenty years and is being made welcome to the official and non-official courtesies that the Maritime exchange and its members can extend. His name is Frederic Jerome and he is a retired sailor. On March 25, 1846, risked his own life to save his shipmates and many passengers around Liverpool, bound from London to New York, was caught in a fearful gale and struck the beach of Barnegat. Jerome, who was a sailor on the ship, saved a lead line and all were rescued. Two years later, when the Ocean Monarch burned in the Irish channel, he saved over a score of women and children. For his heroism on this occasion Queen Victoria sent him a complimentary letter and \$500, the town council of Liverpool voted him its freedom and a gold medal and the common council of this city voted him the freedom of this city and presented him with a valuable gold watch.

For over a score of years Jerome has resided in San Francisco, where he follows the occupation of a boatman, known as "The Commodore." Since his residence on the coast he has saved twenty-six people.

**A Rabbi's Travels and Endeavors.**

Pittsburgh, Feb. 13.—Dr. Joseph de Solh Mendez, a rabbi of London, and a distant cousin of the late Lord Beaconsfield, was in this city yesterday. He is on his way home after a tour of the Holy Land. The object of his journey is to secure data for a book to be called "The Modern Hebrew," in which the rabbi intends to depict the present and future of the Jewish race. He wishes especially to controvert the prevailing opinion that Hebrews are a degenerate and inferior race. He says the modern Hebrew's native land is the whole wide world, and that, a restlessness, a wanderlust, is one of the most important things which could happen. He hopes one day to see a Hebrew president of the United States.

**In Siberian Mines.**

San Francisco, Feb. 13.—The story which came from Boston a few days ago of the terrible sufferings of Capt. Morris of the sailing schooner Helena, who was imprisoned in a Siberian coal mine, is pronounced true here by the Associated Commercial company. They keep accurate records of every vessel on the coast, and the Helena is on the list. The Helena is a Russian vessel, and the story is that the Russians have been using her for a long time to smuggle opium and other goods into the country. The Helena is a small vessel, and the story is that the Russians have been using her for a long time to smuggle opium and other goods into the country.

**Gambler Shot.**

Butte, Mont., Feb. 13.—Two gamblers, Butler and Sherin, and a bystander named Boyer were shot in a saloon room here yesterday. Levan played heavily at cards with Sherin and Butler, and asked the latter for a \$200 loan. Being refused, Levan began firing and both he and Sherin emptied their revolvers. Butler was fatally injured and the two principals were seriously wounded. Sherin will probably die.

**St. Louis Bridge Bill.**

WASHINGTON, Feb. 13.—The St. Louis river bridge bill, for the construction of a bridge between St. Louis and New Orleans, has passed the Senate today. Both the Duluth & Red Wing and the Belt Terminal companies are to construct the bridge, and it either fails to join the river in beginning work, in eight months the other acquire the bridge.

**That Hurley Case.**

ASHLAND, Feb. 13.—Judge Gates is valuable paper for taking the Perrin, Hurley, bank robbery cases to the supreme court. He says that he has good grounds to work on and expects to get Judge Perrin out of Waupun prison.

**Opera House Burned.**

DUNQUE, Iowa, Feb. 13.—Roemer's Opera house block at Waukon, this state, was burned yesterday. Roemer's hardware store and Pleimling's clothing store were consumed. The loss is estimated at \$25,000, with an insurance of \$15,000.

**Official Junketing Trip.**

WASHINGTON, Feb. 13.—The President and most of the cabinet will visit the Pacific coast soon after the adjournment of congress, and have arranged the trip so as to include a tour of the Southern states.

**Canadian Chinese Revenue.**

Vancouver, Feb. 13.—The amount of duty collected on Chinese immigrants at this port last month was \$3818, an increase of \$802 over the corresponding month last year. Most of them were en route for the United States.

**Maine Ice Crop Secured.**

AUGUSTA, Me., Feb. 13.—Ice harvesting on the Kennebec river is completed. About 700,000 tons are housed.

## TALKING ON CHARTERS.

The Duluth Side of the Argument is Heard Today.

CONSIDERABLE FEELING IS SHOWN.

Mayor Davis Returns and Talks on Annexation and the Crap Shooting.

St. Paul, Feb. 13.—It is evidently a fight between Minnesota and Wisconsin. The house committee on towns and counties gave a hearing to the Duluth men at 10:30 o'clock this morning for and against the proposed West Duluth charter. City Attorney Allen introduced the question in a short and well put argument, and was followed by Secretary Thompson, of the chamber of commerce, and ex-Mayor Sutphen. All three presented the various objections to a West Duluth separate charter, and appealed to the committee to stand by Minnesota, equally Wisconsin and help build up one great consolidated city. Maps were presented by Secretary Thompson and a strong case was made for the union.

Mr. Allen explained to the committee the necessity of one strong municipal government and showed the reason why Duluth, with lower rate of valuation, was assessed five or six mills more than West Duluth—that the people might have fire protection, a full library, good schools, etc., none of which West Duluth could offer as yet. He also spoke against three acts of government—meaning West Duluth, Lakeside and Duluth. The public interests of Minnesota demanded, he said, a consolidation which is just and right.

Mr. Thompson was heard in the same strain, and especially in regard to the water of the bay of Duluth and St. Louis. This, he said, was almost absolutely without current, and the surrounding population would be obliged to empty sewage into this current bay and furnish thereby the germs of all contagious diseases, which would be death to our families in Duluth. Duluth, he said, was the center of the rivalry between West Superior and West Duluth and to a certain extent, of Duluth proper. J. C. Hunter, who is a member of the Greater Duluth company, which has always profited by West Duluth, said the West Duluth Land company would like to build a city hall and make Oneota pay for it. Lon Merritt was next called to the floor and presented a strong plea against the consolidation. He said that the city of Duluth had a population of 15,000, but three voters of Oneota are in favor of the consolidation. The committee then took a recess until 3 p. m.

**DOESN'T LIKE LETTERS.**

That are Printed Anonymously; The Mayor returns and Talks.

Mayor M. J. Davis returned from St. Paul this morning. He states that annexation matters look very bright for the union.

"It is my opinion," said the mayor, "that our representatives will take care of our interests all right. All of them feel confident that it is coming out all right. Mr. Hill has put in an interview for one city on this side of the bay. A copy of the argument has been given to each member. Secretary Thompson, of the chamber of commerce, has prepared a lithographed map showing the position of the various suburbs and showing what a divided community would exist on this side of the bay with several warring municipalities. A copy of this map will be laid on each member's desk."

"The committee before which the delegations were to appear did not meet last evening until 6 o'clock so they adjourned until 10 o'clock this morning. There are strong delegations from both Duluth and West Duluth to look after their interests. It is probable that extremely tired, however, to see Ross and Elliott of West Superior there lobbying against annexation for Duluth."

In regard to the arresting of the Spalding house waiters and bell boys, the mayor said: "I see there is considerable anonymous letter writing by the New York Times and exclusively by the News without a name come out and make anonymous letters, but a meeting when they claim, did the shooting, then I could not upon the matter. No one can pay any attention to anonymous newspaper communications. It can be shown that a policeman shot anybody, without just provocation, he can be removed upon proof of the same."

**BARON HIRSCH'S FUND.**

Plans of the New York Trustees for Its Investment and Management.

New York, Feb. 13.—The trustees of the Baron Hirsch fund to assist poor Hebrew immigrants, held a meeting yesterday afternoon. The \$240,000, which is to constitute the fund is not by any means a gift, but that it is to be loaned out, without interest, to the needy. The fund is exclusively for the use of Russian and Roumanian immigrants who have been in this country not longer than two years. The plan and purpose of the fund, as outlined by the central committee, is this:

"Furnishing mechanics with tools; teaching them English; acquiring trades, or the knowledge of the use of tools, so that they may become 'handy men' in shops; paying their entrance fees into trades unions; loaning them small sums to help to become self-supporting; establishing day and night schools for both children and adults, only when the local authorities or organizations have failed to make such provision, wherein shall be taught the elementary branches of English, and which shall include the constitution of the United States and improved sanitary habits; transportation to points where it is positively known there is a market for the particular kind of laborers sent forward."

A trust deed between Baron Hirsch and the trustees had been prepared. By it the trustees are to draw on Hirsch on March 1 for \$240,000, and the money will then be invested in this country. The investments are to be made by the trustees and the income will net \$10,000 a month, which is exactly the amount which he has contributed monthly to aid the poor Hebrews for the last year.

**A Break in the Illinois Rank.**

Springfield, Ill., Feb. 13.—The thirty-fifth joint ballot for United States senator, this morning showed a break in the republican and R. M. B. A. ranks as follows: Palmer, 101; Oglesby, 31; Lindley, 16; Stedie, 2; L. C. Hubbard, 1; C. B. Farwell, 1; M. W. Matthews, 1, and F. H. Donnelly, 1.

## MR. GOULD'S SCHEME.

Will Bring Lines South of the Union Pacific Into Harmony.

New York, Feb. 13.—The Sun publishes the full particulars of Jay Gould's scheme for a colossal railway system. The plan includes entrance into Philadelphia and New York, besides a combination of roads north of the Ohio river, affording entrance into Chicago, Pittsburgh and Western New York and a series of routes North and South.

The combination will be a competitor of Pennsylvania, paralleling and surrounding it. He has secured an option on the Baltimore & Ohio, which, with connecting lines, will complete a New York-Chicago line, and hold its own against the New York Central. Through Mr. Brie, he is after the Monon, which will furnish a supplement to the Lake Erie & Western, giving the latter an entrance into Chicago and taking it into Cincinnati and Louisville. At the same time it will give the Richmond Terminal, Louisville & Nashville, an entrance into Chicago.

The acquisition of the Pittsburgh & Western by the Baltimore & Ohio, puts the latter on an equality with the Pennsylvania road in Western Pennsylvania, besides shortening the Baltimore & Ohio's route to Chicago. Appearances point to the Baltimore & Ohio acquiring the Western New York & Pennsylvania road, which meets the Pittsburgh & Western, and let the Baltimore & Ohio into Western New York in competition with all the other trunk lines. These deals north of the Ohio river will make the Gould-Inman position impregnable in competing with the Pennsylvania and the New York Central.

Mr. Gould's complete scheme is to bring all the important lines in the territory south of the Union Pacific and Pennsylvania systems into a harmonious whole, with a friendly understanding as to rates and divisions of business.

**AMERICAN BASEBALL.**

Matters of Importance to the Game to be Decided.

CHICAGO, Feb. 13.—Baseball dignitaries from all over the United States are assembling at the Auditorium today. The national board of control, the court of supreme jurisdiction of the game, opened its inaugural meeting in the club room of the hotel about 10 o'clock. The first business to come before the board of control was the election of a chairman. No election had taken place up to this writing, but it is understood that President Spalding, of this city, is the unanimous choice. Should he be absolutely refused, Byrne, of Brooklyn, will be the next choice.

A board of control is about to face a hard task. One of its duties will be the disposal of the various players turned over to it after the reserve lists have been made out by the respective clubs of the league and the American and Western associations. On Monday next, according to the requirements of the new national agreement, these lists will be in the hands of Secretary Young, and the real work of the season will begin.

The board of control will be required to make disposition of over one hundred players. Next to the election of a president, the most important business of the meeting is the adoption of new rules. One of these is outlined by Allan Thurman, Jr., as follows: "We propose that every month each manager of a club shall file with our board a private report containing the full personal history of every player in his club. This history shall detail his habits, temperate or otherwise, his obnoxious traits, and his department on the diamond. The record kept by the official scorer is also to be filed."

**AMERICAN WHEELMEN.**

Annual Meeting of the Fraternity's Racing Board in Progress.

PHILADELPHIA, Feb. 13.—The annual meeting of the racing board of the League of American Wheelmen opened here today. It is one of the most important gatherings of bicycle men held since the birth of the organization. The members of the board are Charles H. Devol, of Warren, Pa.; George Collier, of Cleveland; R. D. Garden, of Chicago; W. H. DeGraft, of New York, and George L. Giddon, of this city. The board will prepare its report and submit its opinions to the league at the national assembly meeting to be held in Washington next month.

The question of holding class and handicap racing is to be considered today, as well as the much disputed question of penalizing pneumatic and cushion-tired wheels which caused no end of trouble last year. Definite action will also be taken upon the decision reached at the late conference with the American Athletic union regarding the expense problem.

**THREADMAKERS RIOT.**

Old Employees of the Clark Mills Resist Non-Union Men.

NEWARK, N. J., Feb. 13.—A bloody riot occurred at Clark's thread mills at Kearny last evening. The non-union men had finished their day's work and were taken across the river to Kearny. When they landed they were met by fully 3000 persons, men, women, children and hoodlums. The employees were guarded and allowed to reach the mill when the mob began throwing stones, smashing the mill windows and injuring the workmen.

There was scarcely a whole window in the mills when the excitement subsided. One boy was shot in the foot by a special policeman and several girls were crushed in the surging crowd. It is feared that the trouble is not yet over.

**ATTEMPTED BANK ROBBERY.**

Crazy Janitor Grabs a Handful of Money, but is Caught.

MINNEAPOLIS, Feb. 13.—An attempt was made to rob the Citizens bank on Nicolet avenue yesterday. Only the assistant cashier and bookkeeper were present. A man with the lower part of his face covered with a white handkerchief suddenly appeared, pointing a pistol at the head of Assistant Cashier McQuig and then grabbed up all the money in reach. The man was quickly caught and money secured, about \$700 in amount. The man proved to be W. H. Adams, formerly janitor of the bank. There is no question but Adams is crazy.

**Reciprocity With Newfoundland.**

St. John, N. F., Feb. 13.—The governor's speech at the opening of the legislative assembly yesterday announced that a reciprocity treaty had been concluded between the colony and the United States and it only awaited the consent of the imperial government. The governor, on behalf of the colony, complains of the delay of England in giving her assent.

**Surveying Several Towns.**

George R. Stuntz left today with men and supplies to survey townships 59 and 60, range 11. He will complete the work in about ten days. He will also survey townships 65-19 and 66-17 and 18.

## THE GREAT LAKE TRADE.

The Latest Census Bulletin Shows how it Grows.

BUILDING THE NEW NAVY.

Navy Yards Show Unusual Activity at Present and Vessels are Rushed.

WASHINGTON, Feb. 13.—The census office bulletin in regard to changes in the floating merchandise equipment of the great lakes shows that in 1888 there was a net tonnage of 634,652, while in 1890 the net tonnage was 926,300, an increase of nearly 50 per cent. The estimated value of these vessels in 1886 was \$30,307,450, and in 1890 the aggregate valuation was \$68,128,500.

**BUILDING THE NEW NAVY.**

Unusual Activity in Both the Brooklyn and Norfolk Navy Yards.

New York, Feb. 13.—Both the Brooklyn and Norfolk navy yards show unusual activity at present. The new battleship Maine, launched in the Brooklyn yard a few months ago, is slowly assuming the appearance of an armored vessel. In the Norfolk yard, work on the Texas, Raleigh and Atlanta is under full headway. The sternpost of the Texas is now in position. A new draft of marines have arrived at the Norfolk navy yard. They take the places of a large number of marines drafted from the yard by the squadron of evolution. Secretary Tracy has approved the bill of \$146,605.50 for the sixth payment on the cruiser Monterey, building at San Francisco, and for \$7,322 due on the Newark. The Grants claim of \$36,500, for premiums earned by the Newark on her official run, will probably not be allowed, owing to penalties, the vessel was long overdue.

**WHISKY TRUST GIBSON.**

Network of the Most Conclusive Evidence is Being Secured.

CHICAGO, Feb. 13.—The face value of the whisky trust certificate which Gibson had in his satchel was \$30,000, the market value of which is about \$15,000, which tallies with the amount that Dewar says Gibson promised him. As an effect of the disclosure the price of whisky trust certificates yesterday dropped from forty-five to forty and a half.

The deadly fluid found in Gibson's satchel was opened today. The cork was securely wired and sealed. Upon a piece of paper a single drop was poured. The instant it came in contact with the paper there was a flash and a stream of fire shot up with sulphurous fumes.

There are several state laws under which indictments against him can be found. One for the unlawful use of deadly explosives, for which a penalty of five years' imprisonment may be inflicted; one for conspiracy to commit murder; and one for conspiracy to commit arson. Government officers claim to have the strongest evidence possible against Gibson, and are confident that he will be found guilty of the charges against him. President Greenhut, of the whisky trust, is in Washington, and in an interview there declared that, whatever Gibson may have done, he was certain there was nothing which could involve the trust.

**ONE IN TEN.**

Sherman's Chances are now Said to be in that Ratio.

New York, Feb. 13.—No doubt but Gen. Sherman's condition is greatly improved this morning. He passed a quiet night with no repetition of the sinking spells. The last bad turn took place at an early hour in the evening. Secretary Barrett said that it had been no longer than 12 o'clock last night that he is feeling better. He had regularly taken nourishment, which consisted of milk and whiskey. In an interview there declared that, whatever Gibson may have done, he was certain there was nothing which could involve the trust.

**MORE CHICAGO TROUBLE.**

Italian Grinders at Jackson Park Driven off by Union Men.

CHICAGO, Feb. 13.—The work of grading in Jackson park for World's fair, under contract to McArthur Bros., is at a stand still. Idle workmen of the union are trying to induce the Italians to strike for an advance, attacked them and drove them out of the park.

**GERRYMANDERED.**

The Alabama Legislature Fixes the State for White Delinquents.

MOBILE, Ala., Feb. 13.—The senate today passed the house bill to redistrict the state into nine congressional districts, based on the last census. The legislature has divided up the black districts by attaching black counties to white counties so that solid democratic delegations are assured.

**The Senate Has Control.**

DUNQUE, Iowa, Feb. 13.—Judge Shires of the United States circuit court, has rendered a decision in which he holds that the senate, not the United States courts, has jurisdiction of cases growing out of switching charges fixed by the state railroad commissioners.

**Trunk Factory Fire.**

EVANSVILLE, Ind., Feb. 13.—Ungler's trunk factory here was damaged by fire last evening to the amount of about \$25,000; insurance, \$8000. A store adjoining was damaged about \$15,000.

**Has Not Compromised.**

DENVER, Col., Feb. 13.—T. J.

## WORLD OF COMMERCE.

Cash Wheat and Futures on the  
Duluth Market.

## MONEY MARKETS IN THE EAST.

Leading Speculative Commodities in  
All the Leading Markets  
of the World.

The opening was firmer at advanced figures this morning. May No. 1 hard opened at 40c and May No. 1 northern at 39c advance over yesterday's close. The first sales in May No. 1 hard were made at 39c advance; the first sale in May No. 1 northern was made later at 38 1/2c for a lot of 35,000 bu. There was a good demand and a good deal of trading in the May futures up to 1 o'clock. The trading favored May No. 1 northern.

There was no demand for cash wheat in store but a fair demand with trading done in cash in store and February wheat. The close was unchanged from yesterday except in May wheat which closed at 39c and May No. 1 northern at 38 1/2c. The trading of the session was almost all confined to May wheat. No. 1 hard ruled steady selling at \$1.00 1/2 in 10,000 bu lots and closing at the same figure with sellers.

May No. 1 northern ruled very active, starting with a 35,000 bu lot at 39 1/2c and fluctuating considerably it gained 1/2c and then 3/4c, selling in 35,000 bu lots and fell from 39 1/2c to 39c and dropped to 38 1/2c at Grace method church this morning. Cash wheat on track sold at the opening for 39c and gained 1/2c for No. 1 northern. No. 2 northern car lot on track sold at 38c. No other trading in other wheats was done.

The closing prices today were as follows:

	Cash	Feb.	May
No. 1 hard	39 1/2	39 1/2	39 1/2
No. 1 northern	38 1/2	38 1/2	38 1/2
No. 2 northern	38	38	38

Cash on track: Wheat, 37c; last year, 31c. Receipts: Wheat, 1381 bu. Shipments: Wheat, 1381 bu. Inspection: Cars No. 1 hard 4; No. 1 northern, 8; No. 2 northern, 1; No. 1 white winter wheat, 3; total, 16 cars.

Local Bank Clearings.  
Bank clearings today were \$200,055.91; and for the same day last year they were \$206,307.17.

## Chicago Letter.

CHICAGO, Feb. 13.—The wheat market today surprised everybody by closing 1c over yesterday's closing and that in the face of fine weather and big receipts. The strength is due to big flour clearances at the seaboard and the bearish feeling of the old-time bulls, who are talking much lower prices and sell on every weak spot. They can't attack the market until it begins to break and that is short at low points. This keeps the market in a strong position. Trade is dull, cables unchanged. Corn dull, but firm strength is symptomatic with the provisions higher. Lighter receipts of hogs caused shorts to cover.

## Minneapolis Wheat.

MINNEAPOLIS, Feb. 13.—Closing quotations: No. 1 hard February, 94; on track, 95; No. 1 northern February, 93; March, 93; May, 93 1/2; on track, 93 1/2; No. 2 northern February, 91; on track, 91 1/2; July closed at 90 1/2.

## A Hotel at Mesabi.

Arrangements are being made with H. B. Moore for a site at Mesabi to erect a hotel. This will be followed soon by the erection of a general store. More people are said to patronize the Duluth & Iron Range train to and from Mesabi than any other point on the road beyond Lester Park.

## Chicago Market.

CHICAGO, Feb. 13.—Closing wheat steady; cash 94 1/2; May, 95; July, 95 1/2; March, 93 1/2; May, 93 1/2; July, 92 1/2.

## Women's Relief Corps.

Saturday evening, Feb. 14, at the Bethel, Comrade S. R. Norris will relate his experience at the battle of Chancellorsville.

Professor Willoughby will exhibit a large number of war views made from photographs taken on the battle fields of Yorktown, Chickahominy, Antietam, Fredericksburg, Gettysburg, Atlanta, Lookout Mountain, Petersburg and Richmond. The Women's Relief corps will serve a substantial supper commencing at 7 o'clock. Admission, including supper, 50c. Tickets will be on sale at the door and by members of the relief corps.

Children Cry for Pitcher's Castoria.

Highest of all in Leavening Power.—U. S. Gov't Report, Aug. 17, 1899.

## CITY BRIEFS.

Mr. Dickenson, who is interested with Capt. McEachron, of Duluth, in several north shore properties, and who recently sold the Ogema silver mine to Philadelphia people, has bought a half interest in the Port Arthur Sentinel. It will be a boom conservation in a radical action. Special Judge Davies has again signed. The council will request the governor to appoint his successor at an early date.

Capt. Norris has the excavation complete and the foundation begun for a small brick building on Superior street, near First avenue east, on the site of the building recently destroyed by fire. The authors' reception, for the benefit of the Y. M. C. A. will be given under the auspices of the ladies' auxiliary at the pilgrim congregational church this evening.

The body of Miss Alice I. West, who recently died at the residence of Judge I. E. West in this city, was sent last night to Litcher, S. D., for burial.

Ashtand reports that Duluth people are soon to be able to obtain in Duluth, at any rate in Superior, where there are over 100 "fountains."

At the annual meeting of the Chapin-Wells Hardware company yesterday afternoon, the old officers and directors re-elected.

Several more ladies were initiated into the Retail Clerks' union last evening. The committee on the union to take place next Tuesday evening reported that preparations were being made with fair success. The date of the concert at Temple Opera was fixed for March 4.

It was decided to enlist the Trades council in a fight against the stores that would not allow clerks to take the union. The following variations in temperature were recorded at Pioneer Fuel company's office, Hotel St. Louis, 326 Superior street: 12 p. m., 25° above; 3 p. m., 25° above; 6 p. m., 23° above; 9 p. m., 22° above; 7 a. m., 19° above; 9 a. m., 18° above; 12 m., 21° above. Maximum, 25° above; minimum, 18° above; daily range, 8°.

The committee on electric lighting of the city council has not yet engaged an expert for the examination of the Hartman electric plant.

Steamboat captains and pilots are requested to meet at Yaukey's tailor shop on First street, between Lake avenue and First east, to organize a union, at 7 p. m. sharp, Feb. 14.

Dr. Stafford will give his lecture on "A Trip to Venice" at Grace method church this evening. This lecture is highly spoken of as both interesting and profitable.

PERSONAL.  
Miss Marie Rogers of Moorhead, arrived in the city yesterday. She will succeed Miss Seiden in the Franklin school. Miss Seiden, who is now an assistant at the public library, is ill.

C. P. Maginnis is today in attendance at the democratic state convention in St. Paul.

The family of J. A. Boggs is now domiciled at 1216 East First street.

Mrs. J. R. Myers, who has been seriously ill with typhoid fever, is some better today.

H. P. Hyves left this afternoon for Chicago, where he goes to take the position of vice-president of the Ford Roofing company. Mr. Hyves has been in the employ of this company for several years and has well earned the place.

Charles Ziegler was reported yesterday as being much improved, and will probably be out in a couple of weeks.

T. Eddy Hanson was displaying some theater programs from London and Paris. They are not nearly the equal of the Temple Opera article in the matter of typographical and artistic finish.

Miss Lillian Hammons of Anoka, is visiting her father, attorney W. W. Hammons of this city.

Miss Ida C. Goodwin, stenographer for E. R. Brace, left for Florida Wednesday for a month's visit with her brother's family.

A. S. Genung, of The Herald, was suddenly summoned to Ithaca, N. Y. this afternoon by a telegram announcing the dangerous illness of his mother. He will start this evening.

General Manager Carpenter, of the Duluth & Iron Range road left for Chicago today.

E. O. McCormick, general passenger agent of the C. H. & D. road of Cincinnati, and James Barker, general passenger agent of the L. N. & C. road, of Chicago, are in Duluth today.

W. C. Farrington, of the Great Northern, left today on a trip to the Pacific coast.

Social Notes.  
Mr. and Mrs. George E. Long celebrated the fourth anniversary of their wedding last evening at their residence on East Third street. They entertained the following friends: Rev. and Mrs. G. H. Kemp, Mr. and Mrs. W. B. Ryan, N. A. Gearhart, C. W. Ericson, C. McLean, Misses Grant and Nesbitt, C. A. Long, H. Nesbitt.

Saturday Club's Program.  
The program for the Saturday club of Feb. 14 is as follows: "Talk on Lafayette," "Talk on Ex-Express Eugenie," "Paper on the 'Prize Imperial.'" Other interesting topics will be presented. The subject for general discussion is "Annexation of Canada and Duluth's suburbs."

Pleasant for Mr. Collins.  
About eighty members of the Swedish Lutheran church, surprised their pastor C. J. Collins by the presentation of a purse of about \$50 and cheering addresses, assuring him of their co-operation. Mr. Linderberg, one of the hardest workers in the society, was the principal speaker. It was a complete surprise to the worthy pastor. He expressed his heartfelt gratitude for this spontaneous tribute.

A PETITION.  
Duluthians Sign a Petition to Hurry the Council in Water Question.  
The following petition started in circulation last night, has already received very many signatures:

"The undersigned, citizens of Duluth, deeming that the exigencies of the public health demand that immediate action be taken, looking to the securing of pure water, hereby join in asking that the citizens of this city generally assemble in mass meeting at the rooms of the chamber of commerce, in the Chamber of Commerce building, at 4 o'clock p. m., Monday, Feb. 16, to consider what is best to be done in the premises. A large attendance of citizens is requested."

Pure cod liver oil of my own importation direct from Norway, for sale at C. J. Tuttle's drug store, 1903 West Superior street, Duluth, Minn.

## THE GAMBLING CASE.

That Against the Alleged "Crab" House  
Up This Morning.

The case against W. P. Green, arrested last Tuesday night during the raid made upon a party of alleged "crab" shooters on the premises 415 West Superior street, was called in the municipal court this morning. Attorney McQuade appeared for the defendant and Assistant County Attorney Davies for the prosecution. Chief of Police McQuade, City Detective Tom Hayden, and Officer Martin Smith, who participated in the raid, testified to what occurred the other night, the capture of the inmates and of the crab table, which was produced in court.

After them the testimony of witnesses for the defense was offered. Two of them testified that Officer Kohagen fired the shot, and that it was responsible for the wounding of the colored boy, Steve Warner, now lying with a bullet in his thigh at St. Mary's hospital.

All the officers said to have been engaged in the raid were placed on the witness stand to testify with the exception of Officer Kohagen, charged by them with doing the shooting.

Judge Morris decided to hold Green to await the action of the grand jury under bonds for \$200, which were promised. The judge in making his decision took occasion to say that gambling was not a very serious offense under the law, but that there was a crime committed on the witness stand today which merited more serious consideration. By this remark he was understood to refer to the testimony introduced by the defense.

A case against Kohagen may be made out if possible. Those interested in behalf of the colored boys that they will be able to make out a case easily. He will be charged with assault with a deadly weapon.

WHERE'S THE DIFFERENCE?  
An Offer to Put in a Good City Electric Plant for \$70,000.

As showing the status of the electric lighting business and the absurdity of the price put on the Hartman plant by the city council special committee, The Herald will copy the following letter received this morning from the manager of one of the largest and best, if not the largest, electric companies in the United States, in answer to a letter inquiring for how much it could duplicate the present city lighting plant of the city.

An exact inventory of the Hartman plant was sent, minus figures of cost, and the answer is below:

"We beg to acknowledge receipt of your favor regarding a plant for the city of Duluth, and in reply to say that we could probably duplicate the plant they now have, with new apparatus of superior work, including arc lights, pole lines, steam plants and everything in fact, except the building, for about \$70,000."

It is stated by the electrician who sent for and received this offer from his home company, an electrician here figuring on the transmission of electric power, that when it comes to close figuring his company will drop at least \$10,000 below the figure above. What in the name of all aldermanic precedent is the use in getting an offer, here to figure on the cost of a second, or third, hand plant when, if advertisements are made for bids the chief electrical companies of the city will drop at least \$10,000 below the figure above. But bids, expert or anything else, the city hasn't the money to put in the thing and simply cannot buy.

UNDER ONE ROOF.  
A Citizen of West Duluth Writes Sharply on the Situation.

To the Editor of The Herald:  
One would think from the reports from Oneco, or the letters from the Merritts (same thing), that a few office-seekers were running the whole business at West Duluth, and were trying to buy up the representatives of the city. They have caused to be printed and laid upon the desks of our legislators a "Booklet of the People's" documents, that place them, three points, that Annanias; they look across a mile of water and see the terminal of their railroads established; they see their one docks built over there; they can, by the prophetic eye, see Oneco dwindle to the way station it was before West Duluth lifted it out of the mud and gave it well-paved highways; they have but to take a step backward and the now high-priced lots of Oneco would again be covered in mud.

They would have the outside world think the citizens of West Duluth were prostituting themselves in the interest of "across the bay" the men who have planted homes here have done so for the official paper there is in it, and not for a financial purpose; they have named us "ghost dancers," while their own Skida-wan-bo, chief of the Oneco's, is smoking the pipe of peace with his friends only. The city and taxpayers of West Duluth want to be come a part of the great commercial city that is to be built at the head of the lake, but they desire the right to ask, that the day of the wedding be postponed long enough for the "bride" to get her steels paved, her other little matters fixed, and then she will say to Duluth, take me, I am ready.

West Duluth spurns the charges that she holds back to build up a city across the bay, and denies that her remaining out of the city for a time, will injure a hair of dear Oneco's head, but that if the friends in Oneco will try and help her, let up on the "baby act" and do as much to advance the interests of the Minnesota side of the bay as her foolish letters have to injure it, they will not lose a terminal, an ore dock, or pay unjust taxes, and we know of no reason why the pipe of peace should not be smoked by every trader from Fond du Lac to Lakeside, and all these in due time be called to live under one tepee. West Duluth, Feb. 13. CITIZEN.

What the Lakes can do.  
It may seem to many a strange thing to say, but it is nevertheless claimed to be a fact beyond dispute that the new Goodrich Transportation company's steel passenger boat Virginia, now in process of construction at the Globe Iron works, Cleveland, will be the finest steamer in the world flying the American flag. Not a single vessel with an American register—not even the latest floating palace plying between New York and Fall River—is excelling this in sweeping claim. In her general appointments the Virginia will resemble the modern ocean passenger carrying steamers, while her cabin is to be, as nearly as it will be possible to design it, a duplicate of the steamer Indiana.

The Author's Reception.  
The rehearsal last evening for the author's reception, which will be given in the parlors of the congregational church this evening at 7:30 o'clock indicated that those who attend the entertainment will have a very pleasant evening. There will be real talent and lots of fun. Refreshments are served at the close of the program.

Will Examine by Electricity.  
Wires are being laid today to furnish electric light to Diver Chalk for his examination of the intake pipe of the city water mains.

### WORLD OF COMMERCE.

Cash Wheat and Futures on the Duluth Market.

### MONEY MARKETS IN THE EAST.

Leading Speculative Commodities in All the Leading Markets of the World.

The market opened weaker today and ruled dull throughout the session. There were scarcely any trades made except in wheat on track and May No. 1 northern up to noon. The first sales in May were made 1/2c off from yesterday's closing prices and dropped late in the forenoon to 3/4c from the opening. The estimate of the visible supply for next week by Chicago is that it will show a decrease in wheat of from 35,000 to 40,000 bu. The receipts here for this week were about double those of last week and will show an increase for the week of from 90,000 to 100,000 bu. American markets ruled dull and weaker. Reports reached here of excellent weather in the winter wheat regions and of the probability of freer receipts at storage points in the near future.

The only dealing in futures was done in May No. 1 northern. It opened at 96 1/2c, selling in small lots, and dropped 1/2c in the next trade. The demand tendency continued until it reached 96c. It remained steady at that figure until the close. May No. 1 hard closed without transactions at 96 1/2c. No. 1 northern wheat on track sold at 96c. There was no trading in other cash wheat.

The closing prices were as follows:

	Cash	Feb	May
No. 1 hard	96 1/2	94 1/2	90 1/2
No. 1 northern	96 1/2	94 1/2	90 1/2

Cars on track: Wheat, 52, last year, wheat, 25. Receipts: Wheat, 16,619 bu. Inspection: Cars No. 1 hard, 15; No. 1 northern, 14; No. 2 northern, 4; no grade, 1; No. 1 white winter wheat, 1 total, 35.

Chicago Cattle. Chicago, Feb. 14.—The continuation of the fine weather and big receipts was the cause of big selling, and in the early part of the session the market was easy, but towards the close it firmed up on shorts, taking in their profits. There is nothing new in the market to bull it. It needs outside support, but that is very scarce, and the local bears are taking advantage of the situation to pound it to prices. Corn is lower on big receipts for Monday. Provisions early were higher on light receipts of hogs, but the close is a shade lower. Local shorts are the only support to the market.

Following is the close: Wheat: Easy; cash, 94; May, 97 1/2c; July, 92 1/2c. Corn: No. 2 steady; cash, 50 1/2c; March, 51 1/2c; May, 52 1/2c bid; July, 52 1/2c bid.

SAND AND TILE. A Duluth Company Formed to Make Tile and Sell Sand.

The Duluth Sand and Tile company will file articles of incorporation Tuesday, with a capital of \$50,000. The purpose of the organization is to dredge and keep sand and gravel on hand for building purposes and the manufacture of tiles and other material made from sand and cement. The incorporators and officers are: President, M. E. Chambers; vice-president and general secretary, K. G. Staples; general manager, William Osborn; attorney, J. A. Collins; treasurer, F. Osborn and A. E. Osborn, M. E. Chambers. The company will use a patent scow with sloping sides similar to an ore car for carrying sand which will be pumped in and out of them. The scows are patented by William Osborn and they are rented of the patentees by the organization. Timber is being collected for the manufacture of the scows and a special tug is being built at Fond du Lac for towing. The company will have docks for sand at Duluth and Superior.

Success to Them. The Herald job office and book bindery has been leased by Seipel, Miller & Hunter. They have been connected with that part of the Herald establishment for a long time, and what they don't know about job and book work of all kinds, as well as of every branch of the business, isn't worth knowing. All are industrious and careful men, and The Herald wishes them the best of success, which it feels sure they will have.

Big for New York but Small for Duluth. New York, Feb. 14.—The big new grain elevator of the West Shore railroad at Weehawken was put into operation yesterday for the first time. It holds 1,500,000 bu, and the company thinks it is the finest in the country. It is nearly like that of the New York Central at Sixtieth street, North River, but it contains some improvements which the latter hasn't got. The elevator is working well.

Dun's Report. New York, Feb. 14.—R. G. Dun & Co.'s weekly review of trade says: There is some improvement in business at the East and more confident dealing, and at Chicago the tone is very hopeful. But at most other Western and nearly all Southern points business shows no increase in volume, and is rather hesitating.

Minneapolis Close. Minneapolis, Feb. 14.—Closing prices: No. 1 hard February, 94c; on track, 94 1/2c; No. 1 northern, February, 92 1/2c; March, 92 1/2c; May, 94 1/2c; on track, 94c. No. 2

To Owners of Duluth Property. We have outside parties with \$25,000 spot cash to buy Duluth property. If you have any property under the market bring it in and we will see what we can do for it.

### AT THE CHURCHES.

Notes of Services Tomorrow at a Number of Duluth Churches.

It is intended, in the following announcements, to note all the church services of Duluth, but merely those where special topics are discussed tomorrow. A church directory will be found on another page.

Reithel—C. C. Salter, Pastor. Sunday school, 3 p. m.; illustrated lecture, 7:30 p. m. "Lessons for Present Time From the Life of Elijah."

At the First Unitarian church—The pastor will preach in the morning upon the theme, "A Busy Man's Religion"; in the evening the subject will be "A Reformation That Reformers." Sunday school at noon; Y. P. S. C. E. at 6:40 p. m. Seats free. All welcome.

At the First Presbyterian church—Rev. C. F. Niles, minister of the unitarian church, West Superior, will preach the sermon. First Presbyterian, regular morning service at 10:30, in which the pastor will be assisted by the Rev. O. S. Thompson. Sabbath school at 12 m.; Y. P. S. C. E. at 6:30 p. m. At 7:30 p. m., the pastor will deliver the fifteenth sermon on "Genesis."

Endion baptist church—Services at 10:30 and 7:30. Morning, "Christian Growth;" evening, fourth sermon on representative churches, "The Church Outwardly Active but Inwardly Corrupt." Young people's meeting, 6:45.

St. Johns English Lutheran church at Parsons college hall—Subject of Sunday morning sermon, "Some Lenten Thoughts." Sunday school at 11:40 a. m. First Methodist church, morning subject, "The Good Man's Advantage;" evening subject, "The Power of the Gospel." Children Cry for Pitcher's Castoria.

### THE FAIR MAY FAIL.

Present Condition of Affairs at the Big Windy City.

#### WHAT THE STATES ARE DOING.

Great Pleasure Expressed by the Promoters at What Three States Have Voted.

CHICAGO, Feb. 16.—Scarcely any news received at the headquarters of the World's Columbian exposition in Chicago produces more satisfaction than that relating how the several states and territories are preparing to take part in the enterprise. All intelligence seems to indicate that the people throughout the country seem to be almost unanimous that their respective states should have a liberal appropriation to this end. Indeed, without such appropriations a representation characteristic of American enterprise can hardly be expected. A feeling akin to patriotism prevails, that the exposition, so far as the country is concerned, must be thoroughly and completely representative of the best industry, endeavor and achievement of the American people, so much so that in viewing it as a great international exposition, the visitor will be unmistakably impressed with the fact that the United States rank foremost among the nations of the world. The latest data in the hands of Director General Davis show the following with reference to appropriation bills in the several states.

Bills signed by governors and in force: Iowa, \$500,000; Oklahoma, \$700,000; Tennessee, \$500,000. Bills passed by one body of legislature: California, \$300,000; Colorado, \$150,000. Bills introduced: Arkansas, \$100,000; Illinois, \$100,000; Indiana, \$150,000; Minnesota, \$250,000; Nebraska, \$150,000; New York, \$250,000; Ohio, \$100,000; Pennsylvania, \$150,000; Tennessee, \$250,000; Texas, \$200,000; Washington, \$200,000; West Virginia, \$100,000; Wisconsin, \$250,000, while the total of all bills so far introduced in state legislatures amounts to \$4,062,000.

This showing is from only a few states and is based on information from unofficial sources. Many of these sums named will be increased and other states whose legislative committees have bills in preparation expect a sentiment favoring liberal appropriations. In several states private subscriptions have also been started to swell the state exhibit.

#### A NEW YORK VIEW.

What the Sun Has About the Condition of Affairs.  
NEW YORK, Feb. 16.—The Sun prints the following in reference to the World's fair: "Every officer of the national commission is on the point of resigning, with the understanding that the vacant posts shall remain vacant. The local directors, on which the management of the exposition would fall, are expected to be confronted by an apparent deficiency of \$5,072,000, which may be swelled to an actual shortage of \$8,000,000."

"Nine months and thousands of dollars have been wasted in quarrels over the site question. Today nobody knows whether all of the fair will be held at Jackson park or whether five buildings will go on the lake front. At the earliest the site question will not be settled before the next election of directors, in April. With a salary list of \$250,000 a year, \$150,000 of which goes to architects, the directors are unable to show a single result of the first year's work except plans for two sheds now used as tool houses."

"Quarrels are the least of the difficulties that beset the exposition. The corporation is hard up. The lowest estimate that the directors have put on their requirements is that the total cost of the fair is \$15,000,000. To meet these demands \$10,000,000 has been pledged. Of this amount \$5,000,000 is represented in popular subscriptions from which \$4,000,000 will be realized. Five millions will be realized from the sale of city bonds. The balance of \$5,000,000 is represented by the directors' estimate of the amount that the city will be able to raise by the sale of bonds and the repeal of the ordinance, so that the directors may count on a fund of \$3,000,000."

"Chief of Construction Burnham has ordered plans for exhibition buildings that will more than exhaust the visible fund. He says the buildings will cost \$10,000,000."

#### PICKING BONES.

Arbitration Board of the World's Fair About its Pleasant Business.  
CHICAGO, Feb. 16.—The national board of reference of the World's Columbian commission assembled in the offices of Director General Davis this morning. The board is composed of President Palmer, of Michigan; Vice Chairman McKenzie, George Massey, of Delaware; William Lindsey, of Kentucky; M. de Young, of California; E. B. Martin, of Illinois; and J. W. St. Clair, of West Virginia. The functions of this board are to settle disputes between the stockholders of the commission and the World's Columbian exposition as represented by the local directors.

So far as the technical language of the call is concerned the meeting has been convened for the purpose of passing upon modifications of the plans adopted at the last meeting of the commission and transacting other business. The indications are that there will be several breezy sessions before an adjournment is taken. It is proposed to insist upon a fuller recognition by the local directors of the power of Director General Davis. The officers of the national commission are of the opinion that there has been a studied effort to dwarf the powers of that official and they will demand the fullest recognition of his authority. The local directors are unwilling, so it appears, to surrender any of its authority and the result is that the director general occupies an unenviable position.

It is said that the local board of reference will refuse to recede from its present attitude, and in that event a deadlock is inevitable. The directors expect the stockholders will not allow them to surrender the management of their funds to an officer of the national commission, and the stockholders, in turn, they must follow in the course already mapped out.

Another important matter is a review of the arrangements made for the agricultural display at Jackson Park. The architects have set apart a much smaller area for the agricultural exhibit than originally promised, and in the opinion of the national commissioners, it will be prudent to remedy this error at the start rather than to wait until the protest has been made. The meetings will probably continue throughout the week.

### ITALIANS ON TRIAL.

Whether They are Connected With the Mulla to be Decided.

NEW ORLEANS, Feb. 16.—The case of the men indicted for the assassination of Chief of Police Hennessy is on for trial today. Counsel for the state are District Attorney Lukenburg, Assistant District Attorney John G. Finney, W. L. Evans and J. C. Walker. Eighteen of the Italians are represented by ex-District Attorney Lionel Adams, Thomas J. Somerville, Assistant District Attorney A. D. Henriques and Arthur Gastineau. The nineteenth man, Charles Potorno, is represented by Ferd Armand and W. H. Ferguson.

A small army of witnesses has been summoned. The state has over 100 and the defense over 200, to say nothing of the character. These circumstances, with the mystery surrounding the case, the popularity and high official position of the murdered man, as well as the fact that the case is regarded as a direct struggle with the Sicilian Mafia system, will make the trial the greatest interest that has ever taken place in Louisiana.

#### WHITE RIBBONS.

National Council to be Held for a Few Days.

WASHINGTON, Feb. 16.—Preparations for the meeting of the National Council of women, which opens Sunday the national convocation of "White Ribbons," is in progress here. Over 100 ladies from different parts of the country are in attendance. The convocation was formally opened yesterday afternoon in the congressional church with religious services, in which Senator Blair of New Hampshire, Major Pickler, Miss Frances Willard, Rev. Anna Shaw, Mrs. Chapin and others participated, and Mrs. Zerk, daughter of Gen. Lew Wallace, delivered an address upon "Christian Motherhood."

This morning the delegates met in Fourth church, the proceedings being opened with a Bible reading and consecration service. Mrs. Ellis of New Jersey, Mrs. Mary T. Burt and Mrs. Downs officiated. This afternoon there will be a mass meeting to be addressed by Mother Wallace, Mrs. Barnes and Mrs. Fessenden.

#### BENNINGTON REPAIRED.

Slight Changes in the Cruiser; Some of Her Dimensions.

NEW YORK, Feb. 16.—N. F. Palmer, Jr. & Co., the builders of the new third-class cruiser, Bennington, expect to have the vessel ready to make the official steam trial required by the government tomorrow. The vessel arrived here from Chester, Pa., about ten days ago, and was at once put into the dry dock at the navy yard, where she had her bottom cleaned of all marine growth and had the pitch of her screw propellers increased.

The Bennington is the second war vessel ever launched in this country with her machinery and fittings practically in place. She is an exact counterpart of the Concord, which vessel recently made her official trial and exceeded the limit of horse power guaranteed, thus earning a premium. Her principal dimensions are: 226 feet in length, mean draught 14 feet; displacement in tons to load, 1,703 tons; area, 6,252 square feet; maximum speed per hour, 16 knots.

#### NEW TIN MINES.

Rival of the Black Hills Soon to be Developed.

WHEELING, W. Va., Feb. 16.—Extensive prosuls and prospectors are flocking to Boyce and vicinity in the Blue Ridge mountains over the recent sale of lands previously known to contain tin. The discovery was made two years since, Capt. Sales, a prospector sent away specimens presumably to be analyzed. Not long after he had been heard of matter until recently when a large tract of land in that section was disposed of to a party of people who are still more surprised to learn that the purchaser is Capt. Sales.

The Virginia Tin Mining company of Winchester and Baltimore are developing the mines. The company is capitalized at \$10,000,000 with Capt. Sales president. The mines are on the western slope of Blue Ridge, a few miles north of Abbeys Gap, and about sixty miles southwest of Washington, as the crow flies.

#### MAMMOTH VERDICT.

Jury Exonerates the Coke Company and Makes Good Suggestions.

PITTSBURGH, Pa., Feb. 16.—The jury Saturday, in the case of the Mammoth mine explosion, exonerated the H. C. Frick Coke company, saying they had not been guilty of negligence or carelessness of any kind. They gave the opinion that the explosion occurred on the lower bed or dip of the mine. They recommended that the mine be closed by inclosing electric lights and also that no person be permitted to enter any mine now opened in the state or territory except those whose names are kept in a book of registry at the entry of the mine.

#### UNIQUE SURGERY.

An Operation the Like of Which Was Never Performed.

SPRINGFIELD, Ohio, Feb. 16.—Professor A. J. Howe, of Cincinnati, assisted by several local physicians, on Saturday performed the operation of removing a loose kidney from Mrs. Emma Flora, a well-known lady of this city. The organ had been detached four years ago. The kidney was twice its normal size, and was removed through an eight-inch slit in the abdomen. For two years the diseased organ had so affected her that she lay in a stupor and slept almost continuously. Physicians believe she will recover.

#### Isleman Will Attend.

LONDON, Feb. 16.—The house of commons was crowded this afternoon as the result of the action of the government in granting leave for debate on Mr. John Morley's motion to censure the Irish executive for its action in the Tipperary prosecutions. Morley has prepared a strong arraignment of the government and Balfour is expected to reply with all his vitriolic characteristics. Altogether the debate promises to be more than animated.

#### Sanspox in Wisconsin.

PRAIRIE DU CHIEN, Wis., Feb. 16.—Patrick Delaney died yesterday in the poor house from small pox and pneumonia. He was taken to the house established owing to the epidemic, to look after a smallpox patient, and from him contracted the disease. After delirium and escaped, and was run down by the mare, who shot him in the leg before he would stop.

### CHIEF CLAUSEN TALKS.

The Chief State Grain Man Talks on Legislation.

#### CHANGES IN THE PRESENT LAW.

The Proposed Diment Bill Impracticable; Some Caustic Remarks on Inspection.

A. C. Clausen, chief state grain inspector, is in the city. Asked as to prospects of any changes in the present grain laws, or new legislation affecting grain interests generally, he replied: "There seems to be a very general feeling among legislators that the present grain and warehouse law is ample to secure the results intended, with possibly some slight changes or modifications. It is at present a bill up embodying an amendment to the present law, so as to enable owners and shippers from the country to terminal points to secure better care of 'off grade' grain by having it handled in public warehouses in special bins to be examined for that purpose, the number of such bins to be fixed by the commission, and all other necessary safeguards thrown around it, to secure the advantage to the shipper, without the possibility of any undue or increased advantage to the warehousemen. I have examined the measure very carefully, and believe it will prove not only of great advantage to owners and shippers, but will remove one of the difficulties that the Duluth market has labored under in its inability to properly care for low grade wheat and secure the best results for outside shippers."

"What do you think of the so-called Diment bill compelling railroad companies to erect track scales at all stations in the state, and receipt to the shipper for grain at the starting point?" "I believe any measure that would be practicable in its operation would be an improvement step in the subject of grain at the starting point."

"I don't very seriously that the measure proposed would prove efficient. It is no small matter to furnish track scales at the thousand and one points in the state where grain is shipped, and track scales are unreliable in the cold season. It would therefore tend to cause a great deal of delay unless a switch engine was employed at each station which, of course, is out of the question."

"We have no complaints of short weights except at Minneapolis. Grain is unloaded promptly at Duluth, generally on the day of arrival, while at Minneapolis it takes an average of three days. There is no doubt but that if this difficulty was solved there would be no further agitation on the subject of weights. The trouble at present is that our inspectors are forced to break seals to get at the work of inspection and leave the cars unlocked to enable the sample men to procure samples—thus the cars are not sealed and the inspectors are unable to establish a sample department in connection with a state and thus place the whole business in charge of the state. The cars are unlocked to enable the sample men to procure samples—thus the cars are not sealed and the inspectors are unable to establish a sample department in connection with a state and thus place the whole business in charge of the state. The cars are unlocked to enable the sample men to procure samples—thus the cars are not sealed and the inspectors are unable to establish a sample department in connection with a state and thus place the whole business in charge of the state."

Asked about an item regarding wheat inspection at Duluth, Mr. Clausen said: "I was not surprised at the error. He concluded that the greater percentage of high grades in the spring as compared with those in the fall, indicated that grading was a part of the crop season. His conclusions are based upon false premises, as every one who is well informed knows that all the damaged and poorest grain is sent forward early, while the better grades are retained for storage and later shipment. A few months ago the character of that in the News was undoubtedly give this 'commission man' an unenviable prominence in Duluth grain circles."

#### BILLIARD TOURNAMENT.

Nine Handlers of the Tories in Contest at Chicago.

CHICAGO, Feb. 16.—A billiard tournament for the championship of America, Schaefer and Slosson barred, opens this afternoon at the Brunswick hall on Washburn avenue. The entries are Ives, Carter, Magrill, Catton, Hatley, Gallagher, McLaughlin, Capron and Shaw. Capron is a Canadian expert and is an unknown quantity. McLaughlin is the well-known Philadelphia billiardist. Shaw is known as a digital billiardist.

The men entered are undoubtedly the best in the country, barring the two stars. As prize there is a handsome trophy and \$1000 added. Schaefer has also contributed \$250, to \$100 for the best single run, \$100 for the best single average and \$50 for the best grand average.

#### BEATING DEAD BEATS.

Merchants Protective Association's Novel Plan for Collecting Debts.

NEW BRUNSWICK, N. J., Feb. 16.—A novel method to compel delinquent debtors to pay is about to be put in operation by the Merchants Protective association. Theodore Hartman, collector for the association, will be placed in charge of a wagon ornamented with a sign showing it to be the collectors' wagon. The collector will parade before the houses of delinquents and, if necessary, charged with the burden of being ashamed of themselves and pay up. The same scheme has been successfully operated at Trenton.

#### Here Endeth an Anarchist.

SOFIA, Feb. 16.—A Bulgarian newspaper says that the body of the Russian railwayman, charged with the murder of Gen. Seliverstov at Paris some time ago, has been found, half devoured by wolves, between Philadelphia and Kaniak. The body was identified by documents found in the pockets.

Samples of Dr. Miles' Nervine at Max Wirths, Cures Headache, Nervousness, Sleeplessness, Neuralgia, Etc., 5

### BOOTH'S PROGRESS.

How the Redoubtable General is Succeeding in His Work.

LONDON, Feb. 16.—So much interest has recently been exhibited in America over the progress of Gen. Booth's scheme for aiding the very poor in England, that that worthy has consented to give a resume of what has already been accomplished. He said that on Jan. 24, about \$300,000 had been received and \$175,000 more was promised, and that he had expected to make up the balance of the half million dollars originally asked for about Feb. 1. The response to his appeal has been generous and while he did not complete the amount as soon as that he has now raised the total half million dollars, with a few to spare.

The large building recently occupied by the trade headquarters of the army in London has been fitted up as a "better class shelter for those who have passed through the original food shelters." This building is known as the Ark. It accommodates 200 men per night. For twelve cents a man can have a bedroom by himself, and for eight cents he can have a room shared with two others. This sum will entitle lodgers to bedsteads, spring mattresses, washing and drying rooms and a large day room, and a sort of reading and sitting room combined. This building is soon to be provided with a library, but it already has a kitchen where boarders can cook their own food, which may be also obtained at cheap rates.

The general has succeeded in opening a Prison Gate home in Argyle street, King's Cross, which will accommodate fifty inmates. To this place is to be attached an establishment for brush, mat, lace and shoe making. Within a few days a food and shelter depot has been opened on Stanhope street, Drury Lane. It is a 6-story building, and accommodates 120 persons. In East End, Quaker street, Brick Lane, a large block of warehouses has also been converted into a food and shelter depot with ample room for 350 men.

Preparations for the city colonies, as outlined in "Darkest England" include Old Street brewery, on which about 150 men are engaged making the alterations required; a building for a food and shelter depot, to accommodate 180 at Leeds. To this latter will be attached a workshop and those unable to provide the eight cents required will be allowed to work that amount in the morning. A 5-story building at Bradford has been obtained with room for 300 men and is now ready for occupancy. Liverpool is also to be the scene of Gen. Booth's work and a food and shelter building has been located with labor workshop adjunct. A second house for 250 men has also been decided upon.

The farm scheme seems to meet with general approval and the offers of farms for the development of his "farm colony" plan are so numerous that it has been difficult to make a choice. The need in this line, however, has not been so imperative and will not receive much attention until next spring.

#### BEFORE THE ATHLETICS.

California Club Entertainment Planned, but the Police May Interfere.

SAN FRANCISCO, Feb. 16.—The proposed contests in the Californian Athletic club, between young Mitchell and George Le Blanc, who meet on Friday next, and Jake Kilrain and George Godfrey are attracting considerable attention. Le Blanc, who has been training at Dexter cottage, San Clite, arrived this morning. Young Mitchell, who has been training at Alameda, comes in tomorrow. Godfrey has trained at Joe Dier's on the San Leandro road, Peter Jackson's old training quarters. Kilrain has the finest training place in the world. He is located at Seal Rock house, at the extreme end of the Golden Gate park. He has a splendid gymnasium and the ocean for bathing, and is in charge of Muldoon and Roeder.

#### A FALLING ROCK.

Pan Handle Train Crushed and Passengers Killed and Injured.

PITTSBURGH, Pa., Feb. 16.—An immense rock weighing 200 pounds fell from Duquesne Heights this morning and crashed into a passenger coach on the Pan Handle road instantly killing Miss Clara Fleming, aged 19 years; injured, F. Donahue, aged 28; Miss Mamie Baldwin, aged 18 years, and an unknown young man.

The victims were all residents of Duquesne college and were on their way to school. It had been raining steadily for nearly twenty-four hours and landslides were feared along the route. The Washington express had just entered the shadows of Duquesne Heights, opposite the city, when the rock came thundering down the mountain side. It crashed into the center of the coach completely wrecking it.

Other passengers were struck by pieces of rock. A scene of wild confusion followed and the whole train load was terrorized, but order was soon restored and the victims were taken from the wreck. It is thought that the rock had become loosened by the continued rains and was set in motion by the jar of the passing train, which unluckily did not have time to escape.

#### A SUNDAY FIRE.

Little Canadian City Meets With a Severe Loss.

NEW WESTMINSTER, B. C., Feb. 16.—This city was yesterday visited by a conflagration which destroyed in the neighborhood of \$500,000 worth of property and caused the death of John McCann of the volunteer fire brigade. Fire first appeared in the premises occupied by F. Stinsky, watchmaker and jeweler on Columbia street, and the whole block of buildings was ablaze before the fire department got to work.

For two hours the firemen fought the flames and were just getting them under control, when an explosion occurred. It broke almost every pane of glass within a radius of half a mile and burst all of the hose pumping on the fire. Masonic Temple, next adjacent to Stinsky's, had been considered absolutely safe, but the breakage of the windows caused a draft which sucked the flames inward, and in a minute the whole interior of the building was on fire. Streams of water turned to steam almost before they reached the flames, and the whole sky was aglow with lurid reflection. It was seen at Blaine and far up the Fraser valley and out on the gulf.

#### One Thousand Dollars Reward.

MINNEAPOLIS, Feb. 16.—The Northwestern elevator company has offered a reward of \$500 for the capture and conviction of the murderer of their agent at Arthur, N. D., and the other elevator companies of Minneapolis have added \$500 to this amount.

### THE WHISKY TRUST MEETS.

Discusses the Exposure of the Horrible Plot.

#### WILL MAKE A PUBLIC STATEMENT.

General Indignation Over the Inadequacy of Secretary Gibson's Bail; Where is He?

CHICAGO, Feb. 16.—The whisky trust directors held a very important meeting this morning in this city, at which the late exposure of the horrible plot to blow up the Studebaker distillery in this city was discussed. A statement to the public will be issued soon covering all points regarding the matter.

George J. Gibson, ex-secretary of the trust who is alleged to be at the bottom of the fearful scheme could not be found today. It is claimed that he is still in Peoria where he has been reported as staying for a few days, though there are some who believe that he has left the country and forfeited his \$200,000 bail, especially as the bail came in such a way that it could easily be lost by those who put it up.

There is very general complaint at the time the bail. Twenty thousand dollars for a concern like the whisky trust is a very small matter when such a crime as Gibson's is under suspicion. When the bail was fixed Gibson's attorney said: "We could just as well furnish \$100,000," as they handed over the cash, and people want to know why it was not made \$100,000 or more. When the Haymarket dynamites were arrested no bail was allowed, and the sentiment is strong that there should be none in this latest and apparently worst dynamiting conspiracy of the age.

The most diligent seeker after information can get almost any sort of a statement as to Gibson's whereabouts. A friend of his says he saw him in Chicago this morning. On the other hand Vice-President Woolner says he received a telegram today saying that Mr. Gibson is at his suburban residence at Prospect Hill, a few miles from Peoria.

#### FOR OFFICES.

The Cranberry Lumber Company Looking for General Offices Here; Confirming Herald Statements.

The Cranberry Lumber company is looking for a suitable suite of rooms for general offices in Duluth. The company will move to Duluth from Ashland in April.

#### SIMPLE ENGLAND.

The Old Style of Public Robbery Causes a Sensation.

LONDON, Feb. 16.—A sensation has been caused here today by a daring bank robbery in broad daylight. A stylishly dressed man accosted a mercantile clerk in the National Provincial Bank of England and while the latter was standing at a public counter in the act of making a deposit of money for his firm.

When spoken to by the stranger the clerk turned toward him and replied. While the conversation was thus going on another man, who was evidently an accomplice of the stylish stranger, snatched from the clerk's wallet containing bonds and checks representing many thousands of pounds and ran. No has not been captured.

#### WIRES KNOCKED OUT.

Eastern Telegraph Wires are Working Very Badly Today.

CHICAGO, Feb. 16.—Last night for the second time this winter a remarkable sudden paralysis of electric communication prevailed throughout the greater portion of the United States. The wires between this city and the East are still working badly, though the utmost effort is being made to repair them.

#### A REVEREND CONGRESSMAN.

Rev. Mr. Kyle Succeeds Mr. Moody as South Dakota's Congressman.

MINNEAPOLIS, Feb. 16.—A special to the Journal from Pierre says the senatorial fight is over. Rev. J. H. Kyle, of Aberdeen, is Mr. Moody's successor. The election is a triumph for the independent or farmers alliance. The last conclusive ballot was: Kyle, 75; Sterling, (rep.), 55; Tripp, (dem.), 35; Campbell, 1. Necessary to choice 70.

#### BRAZIL'S CONSTITUTION.

The New Republican Constitution Passes a Second Reading; Elect President.

RIO JANEIRO, Feb. 16.—In the assembly today the new republican constitution has passed its second reading. The election for president of the republic will therefore be held immediately. The leading candidates are Gen. Da Fonseca, chief of the provisional government and Senator Moraes, governor of the province of Sao Paulo.

#### A Trapeze Performer Falls.

CHICAGO, Feb. 16.—While Bert Whitney, with his eyes blindfolded, was giving an exhibition in a circus last night on a flying trapeze, he fell twenty-five feet to the ground, receiving internal injuries from which he may die.

#### Suing a Trust.

CHICAGO, Feb. 16.—The Michigan Buggy company has brought suit against the American Wheel company for \$50,000. The American Wheel company is a trust and has recently advanced the price of wheels \$3.00 per set. The suit is for damages for violation of contract.

#### Rochester Hospital Burned.

ROCHESTER, Feb. 16.—A fire last night in St. Mary's hospital damaged building and furniture to the amount of \$80,000. A fireman named Frank Payne was killed by a falling cornice. The 200 inmates all escaped except Libbie Nussinger, who jumped from the first floor to the pavement and was badly burned.

#### An Omaha Fallure.

OMAHA, Feb. 16.—Helman & Daychess, large dry goods dealers, assigned

## EVENING HERALD.

BY THE  
DULUTH EVENING HERALD CO.  
PRICE, THREE CENTS—Subscription Rates:  
Daily, by mail, per year in advance, \$7.00  
Daily, by mail, per three months, \$2.25  
Daily, by mail, per one month, .75  
Daily, by carrier, per week, .15  
Weekly, per year, \$4.00  
Largest Circulation in Duluth.

Persons desiring THE HERALD at their homes can secure it by postal card request, or order through Telephone No. 345. Where delivery is irregular, please make immediate complaint to the office.

Entered at the postoffice at Duluth, Minn., as second-class mail matter.  
The Washington office of THE HERALD is at No. 24 New York Avenue, N. W., where the paper is kept on file and where FRANK HERRICK, ALD, correspondent, will welcome visitors from the Northwest.

## NOTICE.

Herald subscribers will confer a favor by arranging to pay subscriptions due upon the first call of the collectors. The Herald's delivery is so large that the necessity of repeating calls is a far upon the time of the collectors and the cost of collection, which is very considerable in the aggregate.

WASHINGTON, Feb. 16.—Forecast till 8 a. m. tomorrow: For Minnesota and Duluth: Fair weather, variable winds; warmer Tuesday.

## MAKING BAD BLOOD.

It is to be regretted, for the cause of union and annexation, that some of the loudest champions of annexation to Duluth of its suburbs have more mouth than brain.

The Herald believes that annexation of the suburbs is a good move, and that it will come. It isn't fully satisfied that the taking in of a lot of wild land and of partially settled districts which will at once demand every improvement, will reduce taxes to any appreciable extent. The general experience seems to go to prove the contrary. Take Superior for instance. Its tax next year is sixty-two mills while the valuation this tax is based on is very high. So with St. Paul. But many who have studied the matter here, carefully claim that annexation would reduce taxes and give better government, and better control over several vexing questions than can be had by three cities or one city and two villages.

It is quite likely that some of those who are advocating a separate city of West Duluth are influenced by the ideas of the politician and the hope of lucrative franchises. It would be strange if this were not the case. But to affirm, as many have, that all those in favor of leaving West Duluth alone are truckling time servers, political tricksters, frauds and "damned rascals" is to reach the height of absurdity and to prove oneself either a willful falsifier, an ignoramus or a zealot, carried away with the cause at issue.

It is well to remember that the people who founded West Duluth—and have made money thereby as they deserved to—are the people who have been at the bottom of nearly every industry and development that has made Duluth what it is. This fact is too well known to need discussion, and its corollary is also easy of recognition. To accuse these men of being "damned rascals" and of taking the course they have for merely personal and financial motives is so clearly an outrage that it has brought out the severest comment from all citizens, on whichever side they stand.

The Herald believes in annexation—so it has frequently stated—but it believes in union first. Certainly insinuations, innuendoes, insults and outright charges of fraud do not tend to union. Let us have no more of them.

## GO THE WHOLE THING.

It is stated that the water company has decided to extend its intake pipe half a mile into the lake. What good will that do? It is easy enough to show that this won't help matters any. Any old fisherman can prove this. The Herald is glad to see an evidence of feeling in the water company's side, but it doesn't want any temporizing and penny wise policy.

While the water question is being stirred up with a sharpened public opinion, why not go the whole thing? There is no supply of water furnished by the city above Fourth the Fifth street mains are practically useless and there are none above them. Is there any reason why Duluth should pander to the water company in this question of supply? We should have water on all streets where there are people enough to pay for its introduction, and the supply on Fifth street should be made plenty. On the higher parts of Third and Fourth streets there is no water at all. The question of a supply for the city from the inland lakes, Rice, Canoe and Grand, has been on the minds of many a long time. It was agitated when the water system was first put in. These lakes are large, covering from 1000 to 5000 acres each, they are deep and fed by springs. They are utterly beyond the possibility of infection and their drainage flows into the Cloquet. It would cost a good deal of money to tap them, but engineers tell The Herald that this cost would be a bagatelle compared with that of moving the source of supply from the lake beyond possible infection—below Sucker

bay, and that the tremendous pumping machinery needed to force lake water to the upper streets of the city would be so far done away with that either siphonage or small pumps would bring the water to our doors under tremendous pressure.

## IN SHERMAN'S MEMORY.

A trusted and brave old soldier of the Twentieth Army corps requests all veterans of Sherman's division of the Mississippi living in Duluth and neighborhood to send their names to The Herald in order that a united move be made for a local demonstration in his honor. It is an excellent suggestion and it is to be hoped it may be carried out at the earliest possible moment. Let all veterans of the march to the sea send in their names not later than tomorrow.

Cleveland's letter against free silver has stirred up a mass in the democratic ranks South and West. Many think it kills him as a candidate for the Presidency in 1892. Blaine declares his letter "makes his candidacy for the Presidency ridiculous." Kentucky politicians, with the exception of Breckinridge, are outspoken against it; so are those of Tennessee, Louisiana, North Carolina, Virginia and Arkansas democrats. It is difficult to precisely determine what will be its final effect on Cleveland's Presidential candidacy, while the commotion will gradually subside and the national democracy will settle down, it is likely to create a good deal of disturbance next year. This letter will strengthen Cleveland immensely in Pennsylvania, New York and Massachusetts, and he must carry one of these states to succeed. All the commercial, manufacturing and industrial interests of New York are so strongly against the free coinage craze that it is virtually impossible for any free coinage candidate to get the electoral vote of that state. Cleveland has made a coup on Hill.

The iron market is in a dull and depressed condition, and the grumbling about the competition of Southern producers incident to such slow periods is heard from the direction of the Pennsylvania and Ohio districts. There may be something in the growl, but is always noticeable when trade brightens grumbling ceases. If railroads are discriminating in favor of the Southern producer, the roads which are directly interested in the prosperity of the Pennsylvania iron district ought to "go them one better." Nobody ever has things his own way very long in the commercial world.

The eagerness of shipbuilders to keep their big yards in business is shown by the trip lately made by one of the Cleveland builders to New York, with a proposition to establish a big line of passenger boats to run between Buffalo and Duluth, his company to build the line. There are a great many conservative people who believe that a line of fine passenger steamers, running on fast time and making rates that would compete with rail routes, would pay, and the time will come when we will have them, but it doesn't seem ripe just yet.

## LIFE.

The following is one of six short poems by W. D. Howells, which, under the collective title of "Moods," will appear in Harpers Magazine for March:

Once a thronged thoroughfare that wound  
By shining streams, and waving fields and  
And festal cities and sweet solitudes,  
All withered, onward to the utmost star:  
Now a blind alley, lurking by the shore  
Of stagnant ditches, walled with reeking  
crags,  
Where one old heavy-hearted vagrant lags,  
Footsore, at nightfall limping to Death's door.

## For Lakeview's Library.

A Valentine social will be given by the Lakeside W. C. T. U. at the house of Mrs. C. C. Schmidt, tomorrow, from 7 to 10 p. m. Be sure to attend and bring a valentine with you, original ones preferred. The proceeds are to be used for the benefit of the Lakeside public library. Come!

## Tariff Pictures.

New York Press: Another picture showing growth of our lake fleet—the absolutely protected American shipping: Value of fleet in 1857, \$33,634,350; in 1860, \$38,128,500; increase, 13.1 per cent. Steamers in 1857, 330; in 1860, 1133; increase, 223 per cent. Why not protect the American merchant marine engaged in the foreign service?

## To be Robbed of Health.

By a pestilential climate, by a vocation entailing constant exposure, physical overwork or sedentary drudgery at the desk is a hard lot. Yet many persons originally possessed of a fair constitution suffer this deprivation of the meridian of life is passed. To any and all subject to conditions inimical to health no purer or more agreeable preservative of the greatest of earthly blessings can be recommended than Hostetter's Stomach Bitters, which cures the system to climatic change, physical fatigue and mental exhaustion. It eradicates dyspepsia, the bane of sedentary brain workers, preserves and restores regularity of the bowels and liver when disordered from any cause, annihilates fever and ague and prevents it, checks the growth of a tendency to rheumatism and gout, and neutralizes the danger to be apprehended from causes productive of kidney, bladder and uterine ailments. To be convinced of the truth of these statements it is only necessary to give this sterling preparation an impartial trial.

Among the illustrated articles in Harpers Magazine for March will be Laurence Hutton's "Literary Landmarks of Edinburgh," illustrated by Joseph Pennell; "The Argentine Capital," by Theodore Child, illustrated by C. S. Reinhart and others; Shakespeare's "Comedy of Errors," superbly illustrated by Edwin A. Abbey; and "The Chinese Lark," by Julian Ralph, illustrated by Frederic Brown. The two serials, "In the Stranger People's Country" and "Wessex Folk," will also be illustrated, the former by W. T. Smalley, the latter by Alfred Parsons and Charles Green.

Van Houten's cocoa—once tried, always used.  
Good advice. If you have a friend with a cough or cold, tell him to try Dr. Bull's Cough Syrup.

## THE INCLINE ROAD.

A Herald Correspondent Who Wants a Move Made Somewhere.

To the Editor of The Herald:  
It has frequently been said that if Duluth shall grow as we expect it, it must grow back on and over the hills. That it will do so is admitted without a doubt. The railroad will run from Onota by easy grade northerly and also around on the east of the city by Howard's mill route, and that these roads will open the vast St. Louis county to Port Arthur and Winnipeg is another undoubted fact. That all of this territory is the heritage of Duluth and always will be so is another fact. Recognizing these facts the Highland Improvement company has brought under its control a vast amount of property with laudable zeal. This company and the street car company many, many months ago entered into a compact to improve said property. The feelings and sympathies of the entire city are bound up in their enterprises, because their scheme is one of the most laudable. These companies have led the citizens to feel an interest in everything they have done. By promises and by published reports their intentions many have been led to make investments by these very things. Inasmuch as their success is one of the vital elements of the city's success, we feel a right to ask both of these companies where the blame lies for the long delay in the incline road. It is said by some the car line blame the improvement company and vice versa; by others that the Eastern Iron company, under contract for the iron work, delayed the work; some attack the improvement others the sincerity of the car company. Both owe a duty and to show where the blame lies, and on the proper shoulders let it rest.  
T. H. F.

## Hints for Maintaining Health.

Juliet Carson, in Harpers Bazar.  
When the health is fairly good, and there is no special strain to be put upon the system, the normal appetite may be trusted to indicate the kind and quantity of food necessary to maintain that condition. Naturally the appetite varies with the changing seasons, and unless it indicates an unreasonable excess of indulgence or abstinence, no attention need be paid to any other monitor. Much harm is done by injudicious or meddling suggestions. If a person is too stout or too thin, too pale or too ruddy, and serious disturbances of the system often follow the mischievous advice to take some bitter or purge, or refrain from fattening food or drink. Paying attention to any of these facts is like playing with fire. If you are ill enough to seem to warrant a radical change of diet or any application of medicine, consult your physician at once. Above all, avoid advertised quack medicines. To use the opinion of a successful dealer in them, whose bank balance is more liberal than his conscience, they are "made to make the shoulders let it rest."  
If you feel a little debilitated take the cocoa tonic; eat plenty of fresh ripe fruit and vegetables, especially oranges; drink lemonade and when unusually fatigued, and just before retiring, drink a glass of milk as hot as can be taken in large sips. Walk reasonably and sleep in pure air. If a day or two of sort of home treatment fail to bring up the body and mind to their proper tonic, call in your doctor and follow his advice.

## The Browns.

Brown has a healthy and full of boys. They are sprightly at work and bright at their books. And are noted for smartness and wit and good looks. Brown is healthy, his wife is fair, and the two little boys are free from rickets of care. They spend no money for powders and pills. And never a dollar for doctor's bills.

The reason is that they begin in the right place. Dr. Pierce's Golden Medical Discovery, by keeping the springs of life pure, the blood free from impurities, wards off all those diseases which spring from bad blood. The use of the "Discovery" prevails liver and kidney troubles, dyspepsia, consumption or lung scrofula, stomach and bowel troubles, and beginning of diseases. That is why the Browns are so healthy. It is also guaranteed to cure these ailments if taken in time and given a fair trial, or money paid for it will be refunded.

## Acres and Lots.

## THE LAKES TO THE SEA.

An Eminent Engineer Makes an Exhaustive Report.

## THE USE OF SHIP RAILWAYS.

Various Routes for a Twenty-Foot Channel Discussed and Figures of Cost Given.

THE MOST important communication ever made public on the subject of through navigation, the upper lakes to the sea, is that delivered at Montreal before the Canadian Society of Civil Engineers by E. L. Corbelle, a noted engineer of Chicago and New York. The Herald asked for and received from Mr. Corbelle an advance copy of the report, and a brief summary of it is given below. In transmitting the advance copy the engineer says he feels that there is no city on the lakes to which the matter of unfettered passage to the sea is of so great importance as to Duluth, and no people who will so greatly profit by it as those of the Northwest.

The object and scope of this paper should be clearly understood at the outset. It is to discuss the feasibility of making an enlarged waterway, one capable of transporting freely the largest carriers on the lakes, from the great manufacturing and agricultural centers of the West, bordering on the

lakes, to the sea ports of the Atlantic and the commercial ports of the Old World. No project is to be considered that will not permit the passage, with speed, of vessels weighing, with cargoes, 5000 tons and drawing twenty feet of water, nor will any narrow channel cut figure. Between the ports on Lakes Superior and Michigan there are over 4000 miles of water navigation, and only one of them is impeded by canals. In such a discussion it is necessary to sketch briefly the growth of such ports as Chicago, Duluth, Buffalo, Milwaukee, Cleveland, Toronto and Montreal. A brief statement of ship railways will also be made.

The great lakes are simply an enlargement of the St. Lawrence river, which takes its rise near Duluth in the St. Louis river. We are contemplating the most magnificent inland navigation of the world. The basin of its drainage is 457,000 square miles. At the foot of Lake Superior is a short canal, being enlarged to carry vessels of twenty-two feet depth, while the next interruption is at the foot of Lake Erie. The distance from the foot of Lake Ontario to the ocean is 1164 miles, and the St. Lawrence

proposed big storehouse there. Dredging for it is now being done by the Lockways road.

## ICE CUTTING.

The Companies Begin the Crop "for Storage Purposes." They Say. Ice harvesting commenced in dead earnest today near the ship canal. It is being cut for storage purposes. The health department is of the opinion that the ice at the point where cutting commenced this morning is wholesome, although the companies claim that none of the ice will be used for domestic purposes. Hart and Monaghan will go out about a mile from the canal to cut their ice for domestic purposes.

Ice to be used for cooling purposes will be taken from the usual places opposite the storage houses. It is rather strange, however, that a good deal of the storage ice is already out in the bay, where it has always been taken, and that where the ice is being cut today is just where the domestic supply has all previous years been gathered. The ice now being cut will go into the houses

APPEARANCE OF STEAMER ON SHIP RAILWAY TRACKS.

is obstructed by rapids in several places. From Montreal to Liverpool is a free channel.

Passing over a large part of the report we come to the recommendations for the future and a discussion of the projected Ottawa ship canal between Georgian Bay and Montreal; the Huron and Erie canal between Georgian Bay and Toronto; the Niagara Falls canal and railway on the American side; and the projected Lake Champlain canal. The canal across Lower Michigan is also discussed.

To begin at the beginning—the new Sault canal, being built by the United States is fully equal to the requirements of twenty feet draft of vessels and a cargo weight of 3000 gross tons, or more. But the Sault canal being built by Canada is not equal to them. To build a canal, today, costing several millions, with a maximum depth of eighteen feet is unwise.

The Ottawa ship canal, between Georgian Bay and Montreal, the author puts aside as out of the question. It would cost for size required, \$83,000,000. Neither would a ship railway be practicable. The late Jas. B. Esda stated in 1885 that a ship railway could easily be built between Georgian Bay and Lake Ontario, avoiding the Niagara canals. Sixty six miles is the length of the route and the cost of a railway, harbors, etc., to carry full sized ships and cargoes would be \$15,460,000. This route is far better

than the one above cited as impracticable for many reasons. It can be built in three years, and the canals along the St. Lawrence can be enlarged in five years. It would probably cost \$25,000,000 to enlarge the Welland canal, but the ship railway would avoid this.

The United States has taken interest in a Niagara canal, opposite the Welland for which surveys are made. It will cost \$35,000,000. A ship railway over the same general route, in United States territory, would cost \$10,751,000. To build a canal from Lake Erie to the sea, by way of Lake Champlain and the Hudson river, would cost at least \$50,000,000 for purposes of unrestricted travel to the sea is apparently impracticable. The Erie canal enlargement would cost \$29,000,000 and would even then not be in condition for fast speed or large vessels.

There remains for brief consideration the enlargement of the St. Lawrence and its canals, giving an outlet to the seaboard for all or any of the above. It would cost to deepen the river to the point where the depth now being secured by the Canadian government, a total of \$27,000,000.

The following table of routes projected, distance from Duluth to Liverpool, time of passage, cost of tolls, etc., is the utmost interest.

Route.	Length.	Passing.	Open.
Huron and Erie railway, Lakes and St. Lawrence.	4300	310	200
Welland and St. Lawrence.	4254	302	200
Welland and St. Lawrence.	4254	302	200
All rail to New York.	4732	340	365

## A WATCHMAN STATIONED.

And the City Wakes up to the Sand Stealing Business. The sand stealer from Park Point is being continued notwithstanding arrests made. The West Superiorite have now a new plan. They take care to steel sand just under the edge of the water over which the state has jurisdiction, in order to avoid prosecution by the owner of abutting property.

A watchman has been appointed by the mayor, who states that the place will be watched henceforth night and day and that all parties caught here taking sand will be arrested.

## MILL CLOSED.

The imperial mill closed Saturday night for a short time while certain changes and betterments are made in the elevator, which has never worked satisfactorily. Considerable hustling has been done lately to get flour ahead to meet the winter demand, and there are something like 28,000 barrels in store today. Manager Church will leave in a short time for Buffalo where he will close matters connected with the

## ICE CUTTING.

The Companies Begin the Crop "for Storage Purposes." They Say. Ice harvesting commenced in dead earnest today near the ship canal. It is being cut for storage purposes. The health department is of the opinion that the ice at the point where cutting commenced this morning is wholesome, although the companies claim that none of the ice will be used for domestic purposes. Hart and Monaghan will go out about a mile from the canal to cut their ice for domestic purposes.

## WEST DULUTH.

A. Filiatrault left yesterday for Montreal, Canada, where he will visit friends for a few weeks.

W. J. Rutherford and wife, who have been visiting with Mr. Daniels and family for the past week, leave for their home at Wykoff this evening.

W. A. Ducker, of Winnipeg, is visiting his brother-in-law, W. H. Lyons, and may decide to locate here.

F. C. Donnet returned last evening from a several weeks' visit in Iowa and has decided to remain in West Duluth.

G. H. Culver, of South Dakota, is looking over the town with the intention of establishing a dry goods store. He will probably occupy the storehouse on C. W. Hoyt's new brick block on Fourth street near west.

Frank Dick and family returned from Milwaukee last evening.

Ed Elston's new residence is up and enclosed, and when completed will be one of the finest residences on Fourth avenue.

Still the Gilley, of Grand Forks, is looking over the city and will probably locate here.

J. J. Kennedy is getting the stock into his new store this morning.

J. J. Laneman, of St. Cloud, is in the city, and will build a store building on Fourth street north and embark in the boot and shoe business.

Mrs. S. C. Smith's daughter, Mele, is quite ill.

Miss Estelle McFarde, of Sixth avenue west, is sick with scarlet fever.

## A BRICK BLAZE.

Last evening fire was discovered in the roof of the First Avenue hotel, First avenue east, near the Belt Line railroad, and in a short time the building was burned to the ground. The fire started in the rear of the structure from a defective chimney. Shortly after the alarm was given many willing hands were at work carrying out furniture, etc., and nearly all the contents were saved. The building was a 5-story frame owned by Capt. Randall, of Duluth, and was leased by Charles Boerner, who has run it for about eleven months. The building was valued at \$8000, and had about \$2000 insurance. The fire department turned out, and while going down Central avenue with the engine the horses turned suddenly into Fourth street north, overturning the chemical and badly wrecking it. The driver, John Varley, was slightly injured, and Ed Oakes had his wrist sprained and his fingers smashed. With any kind of accident there is plenty of water the building could have been saved with small damage.

## FOR EARLY SAVING.

It is always a matter of great interest at this time of the year to lumbermen to get estimates on the amount of logs available. A table recently prepared shows that the amount of logs for early saving at the mills in the different districts is as follows:

Ashtabula district.	65,535,230
Duluth.	24,000,000
Chippewa river.	28,500,000
Wisconsin valley.	10,845,000
Minnesota miscellaneous.	3,500,000
Wolf river.	20,000,000
Total.	64,083,230

## THE HISTORIC HATCHET.

We take the hatchet for our text, because tomorrow is the anniversary of the birth of George Washington, and the legend of the hatchet is inseparably connected with the memory of the great man. And yet these matter-of-fact people, who go patiently mousing around among old documents and records, say the pretty story is not true, and so another cherished belief is shattered. The driver, John Varley, was slightly injured, and Ed Oakes had his wrist sprained and his fingers smashed. With any kind of accident there is plenty of water the building could have been saved with small damage.

### THE CHARTER REFERRED.

The House Committee Submits West Duluth's Charter

### WITHOUT ANY RECOMMENDATION.

Its Airing Before Several Citizens and the Delegation Causes a Warm Time.

ST. PAUL, Feb. 17.—The house committee on towns and counties took off the shelf the West Duluth charter matter and gave it another airing this morning before several citizens of Duluth and West Duluth, and also few members of the house and senate. Mr. Boyd made a most touching appeal for a West Duluth charter, and with the assistance of Capt. Sharp of that village to convince the committee how the sewerage, and such other difficulties as the Duluth delegation used as arguments against the charter, could be easily remedied by the use of the channel. Boyd said Duluth was in fear of West Duluth's outgrowing the parent city, which would no doubt be the result in a few years.

Senator Daugherty was heard in his customary strain of fairness; he asked that the charter question be postponed, and gave his reasons for the request, saying he had not been moved by personal or partisan motives, for he was heavily interested in West Duluth and strongly against the establishment of numerous small cities. Mr. Elliott, of West Superior, Governor Merriam's ex-private secretary, was heard, also Mr. Kinney and Mr. Kendall in what turned out to be a very warm discussion.

After its close the committee went into executive session and at 1:30 o'clock reported the bill back to the house without recommendation.

The senate passed the bill authorizing the levy and collection of a tax on incomes by a vote of 30 to 14.

### TO SEE LEGISLATORS.

They Will Come to Duluth and the Iron Range Country.

M. O. Hall has just returned from hobnobbing with the legislators in St. Paul. He states that not over 20 per cent of the members have ever been in Duluth and all are anxious to see the city. Many of them are desirous of coming here to stop over Sunday or at farthest a week from Sunday.

The principal reason for their interest in the northern country is the fact that an important measure regarding the taxation of mines and their output is already before them. It is proposed to tax the output of the iron mines at twenty-five cents per ton. If the legislators come here they will pass through to examine the mining country and will be expected to come here to stop over Sunday or at farthest a week from Sunday.

### QUAYS DEFENSE.

He Simply Denies the Charges that Have Been Persistently Made.

WASHINGTON, Feb. 17.—Late yesterday afternoon Senator Quay, of Pennsylvania, addressed the senate on the multitude of charges made against his official character, and about which the senator has until now maintained perfect silence.

The first, he said, was an accusation concerning the purchase of the iron mines in 1882 concerning the use of money of the state of Pennsylvania for private purposes. He denounced it as false. During that time he was engaged in stock operations. He had been associated with the democratic cashier of the state treasury. These operations proved disastrous and he was obliged to pay the losses. In doing this it became necessary to supply an alleged deficiency in the treasury and he borrowed \$100,000 for that purpose from his present colleague in the senate, all of which he had long since paid.

As to the charge that he had used money belonging to the committee on wealth of the state to purchase bonds or stock in Chicago street railway, he had purchased Chicago street railway property, but had done it with his own collateral, borrowing from the Peoples bank in Philadelphia, as the bank records would show. No state securities had been used in the transactions, as they are not negotiable. Neither had he attempted to defraud the widow of a deceased friend, and President Thompson, of the Young Men's Democratic association, who for some time he had been a member of the board of directors of Pennsylvania in voting for the pardon of the president.

Certain criticisms had also been made regarding his action while a member of the board of pardons of Pennsylvania in voting for the pardon of the president.

He said that he was engaged in the law, and was compelled by the fact that the sentence imposed by the court was illegal. Upon this point the state attorney general had his opinion along with the decision of the board.

Mr. Quay here gave a history of the bribery cases and the causes leading up to them.

Mr. Quay also alluded to the alleged bribery of himself in behalf of the suppression of a high license measure in the state, and the defeat of the prohibition amendment, and explained his position satisfactorily. Other specific charges were also discussed concisely and denied in toto.

### THE MAFIA.

If It Will Seize Italian Into Honesty, It's to be Encouraged.

CHICAGO, Feb. 17.—A big crowd of Italians came to the office of the chief of police this morning to ask protection for Joseph Gargallo, who had, they said, been condemned to death by the Mafia.

Gargallo formerly kept a small fruit stand on one of the side streets. Several months ago he was notified by the proprietors of the building in which he was located that he must leave. He then sold his business and stand to Giles Perditia, representing himself as a brother Italian. Perditia soon found out the fraudulent nature of the transaction. Gargallo has been absent from the city for some time. Since his return he has received three mysterious notices, written in red, and notifying him that he had been tried by a "tribunal" and unless he made amends for the notice of a brother Italian his life would be taken. These missives were signed "Mafia."

Gargallo is afraid to stir out of his home unless accompanied by a half dozen friends.

Samples of Dr. Miles' Nerve and Brain Tonic, Cures Headache, Nervousness, Sleeplessness, Neuritis, Fits, etc. 5

### FIGHT AT MINNEAPOLIS.

Dan Needham and Tom Ryan for the Welterweight.

MINNEAPOLIS, Feb. 17.—In sporting circles the excitement over the welterweight struggle tonight for the championship of America between Dan Needham of California, is at fever heat. Additional interest, attached to the event from the fact that John J. Sullivan has backed Patsy Kerrigan against the winner for \$25,000 a side and a purse. Kerrigan and Needham fought 100 rounds to a draw in San Francisco a year ago, in six hours and forty minutes, the battle being the longest on record. Sullivan has no personal preference regarding the winner of the present mill, but says that he would like to see Needham get through in order to bring about a meeting of the two old opponents. Needham will weigh in at 138. Ryan, who reached here yesterday, is in the pink of form. He is about Needham's weight and height, but with a longer reach. The fight will be to a finish with small soft gloves.

### DYNAMITER INDICTED.

Secretary Gibson to be Arrested Today, as He Undoubtedly Deserves.

CHICAGO, Feb. 17.—George Gibson, secretary of the Chicago Trust, was indicted before the grand jury yesterday on the charge of the possession, manufacture and guilty knowledge of explosives, intended to be used for the injury of buildings or persons. The evidence against him was convincing and conclusive, and the jury was unanimous on the first ballot for indictment.

At a meeting of the board of directors of the Chicago Trust, Mr. Gibson's resignation as secretary having been tendered, the board of directors, in accepting it, assured Mr. Gibson of their entire confidence in his integrity and honesty and their belief that he would be able to establish his innocence beyond question.

Gibson, if found, will be arrested today, but will probably be granted bail in the meantime, which, of course, he can easily obtain.

### SPANIARDS BEATEN.

They are Worried in an Attack on the Caroline Islands.

SAN FRANCISCO, Feb. 17.—A private letter from Caroline islands received here by steamer today gives an account of further fighting between the natives and the Spaniards, in which the latter were routed. An long ago as last November the Spanish governor sent an expedition consisting of three gunboats and one transport against the Caroline islands. The expedition was successful and troops landed, and after the loss of sixty men made the natives beat a hasty retreat to the interior, where they held ground. The Spaniards were reinforced and six days later attacked the natives in the new place.

The latter were behind their barricade and were armed with muskets and two small cannons, and after a hot fight the Spaniards were badly repulsed with the loss of 120 men. It was expected that a general uprising of the natives would occur, and the government had dispatched ships to Manila for troops at the date the letter was written.

### PULLING IN PATENTS.

Street Railway and Electric Light Interests Concentrating.

MILWAUKEE, Feb. 17.—The Villard syndicate is getting a grapevine look on the street railway and electric light interests of this city. Recent combinations have been formed which are looked upon as the foundation of a gigantic combination that will eventually control the electric business all over the country and crush out all competitors.

The announcement of the absorption of the Thomson-Houston and the Westinghouse companies by the Edison Electric Light Company has been in use in America. Each has operated with different patents, and now these patents are in the hands of the Edison-Villard man.

Furthermore, the electric light appliances formerly owned by the Thomson-Houston and the Westinghouse companies. Being in control of these, the Edison company will, it is believed, be able to kill all other electric companies and force them out of the market.

### MARRIED TO MILLIONS.

Astor-Willing Nuptials Celebrated in the Old Quaker City.

PHILADELPHIA, Feb. 17.—Seventy millions of wealth and one of the fairest maidens of the Quaker city were joined together at 1 o'clock this afternoon when Mrs. Astor and Mr. Willing were married.

The bride was the daughter of John Jacob Astor Jr. The wedding took place at the residence of the parents of the bride, 611 South Broad street. Rev. Dr. Neill, of the Episcopal church, officiated at the ceremony.

The groom was attended by his best man, Harry Le Grand Cannon, Elisha Dyer Jr., Thomas Howard, Center Hitchcock, Woodbury Kane, James Kennechan and H. Fish Weister, all of whom acted as ushers. The bridesmaids were Miss Beatrice Chapman, Miss Grace Wilson, Miss Maude Langdon and Miss Nellie Ashurst, all of New York.

The couple stood beneath a massive laurel bower while the words were spoken that made them man and wife. The bride's table was set in the diningroom. Covers were laid for eighteen, the decorations being white lilies and bride roses. A reception was given this afternoon and will be attended by over 1000 invited guests.

The newly married couple will start for the South tonight, and on their return will sail for Europe. The presents, which were not displayed, aggregate in value considerably over \$20,000. The gift of Mr. William Astor was a complete furnished mansion on Upper Fifth avenue, estimated with its contents, to be worth \$100,000.

### Angus Cameron Recovering.

MILWAUKEE, Feb. 17.—Ex-United States Senator Angus Cameron, of La Crosse, who has been an inmate of the Milwaukee Hospital for several weeks past, is expected here tomorrow. His trouble was not of a mental, but of a dyspeptic nature, and it is given out that he has almost entirely recovered.

### Electricians in Convention.

PROVIDENCE, R. I., Feb. 17.—Delegates to the annual convention of the National Electric Light association are arriving here in large numbers from nearly every part of the country. The convention opens this afternoon and will last for three days.

### CHILLY FOR CHILIANS.

The Insurgent Forces Have the Whip Row Now.

### GOVERNMENT DEFEATED EVERYWHERE.

A Plot Discovered to Assassinate Many Leading Officials of Brazil.

Buenos Ayres, Feb. 17.—The Chilean government troops have been defeated severely at Coquimbo and Quillota by the revolutionists. The insurgent forces are rapidly increasing in numbers from the people who flock to them as they gain in success, and are now advancing upon the capital, Santiago, De Chili.

The situation is very serious for the government, and now only a few of the larger towns remain loyal to the government while the country is mostly with the rebels. The destruction of railways by the insurgent forces hampers the movement of government troops to such an extent that the government is severely handicapped in all directions.

### A Brazilian Plot.

Buenos Ayres, Feb. 17.—A most startling conspiracy has been discovered here by the authorities just in time to prevent its consummation, but details are kept secret by the police and government officials. The plot embraced the assassination of many of the principal members of the new government and a sudden uprising and change in the form of government.

### JOHNSTOWN SUBMERGED.

Floods on the Conemaugh Recalled Deluge.

PITTSBURGH, Pa., Feb. 17.—The continued rains of Monday and today give rise to grave fears along the Ohio river. The water is slowly rising. In the Conemaugh valley a heavy depth of snow is being rapidly melted, and the water is two feet higher than at any time since the Johnstown flood. The Poplar street bridge at Johnstown has been washed from its piers and the destruction of other bridges is feared.

The heavy rains have caused a perceptible increase in the volume of water. All of the Cambria Iron works at Johnstown are under water and also the lower end of the main part of the city from the river to the hotel down. The arches of the stone bridge are responsible for much of the overflow of water.

### Negros for the Cherokee Strip.

DENVER, Tex., Feb. 17.—A large number of negroes passed through this city today en route to the Cherokee strip, Indian Territory. They cannot get in there they intend to squat on the lands of the Sac and Fox. Every wagon was provided with either rifles or shotguns. The negroes are recruiting in Arkansas and Eastern Texas. On the leading wagon in large letters "Free land for freedmen" was written. These negroes can be made for if necessary. The Indians must go.

### POWDERY DYING.

He Dies After His Film Of It Will Save the Federation Job.

TOPEKA, Kas., Feb. 17.—As master workman Powderly was concluding a speech to the Knights of Labor at Representative Baldwin's residence, he fell prostrate from an attack of heart disease. He recovered, however, in about five minutes and was able to walk to the hotel.

The sudden illness of Mr. Powderly is a surprise to his most intimate friends. His life of untiring labor and careful attention to his duties has been a model of health and longevity, but it has long been known that his constitution was not strong. Terence Powderly has many friends outside of Kansas.

Friends and even his most bitter opponents of the Federation would regret his removal from the leadership of organized labor.

The legislature has passed a compromise appropriating \$60,000 for aid of destitute laborers in western Kansas. The money to be used for the purchase of seed grain. The house has recommended the passage of Senator Richter's alien land ownership bill. The measure is a most stringent one and provides that aliens who now own land in western Kansas must leave the state within three years under penalty of forfeiture to the state.

### DEPOSITORS EXCITED.

Run on the American Loan and Trust Company Still Continues.

NEW YORK, Feb. 17.—The run on the American Loan and Trust company continues. President Baldwin refuses to make a statement. Vice-President Evans says the run will probably continue as long as any depositors are unpaid and that the company is perfectly solvent.

The run has now been in progress several days but continues unabated. No great excitement has prevailed at any time, but depositors have been coming in steadily. It is thought that if President Baldwin would make some statement as to the condition of the company confidence would be restored, but he has so far maintained silence.

Conservative business men are inclined to treat the situation as a temporary breeze which will subside as soon as it is seen the company is sound.

### A DEFEAT.

The South Shore and Sco Lines Rate Eastern Rates.

ST. PAUL, Feb. 17.—The Sco and Duluth & South Shore lines announced an advance in rates from Boston to St. Paul and Minneapolis and Duluth on Canadian Pacific Dispatch and Canadian Atlantic to \$1.20 instead of the \$1.05 rate heretofore existing. The new rate taking effect Feb. 27. This is what the Sco lines have been endeavoring to accomplish for a long time.

### Senator Pfeiffer's Credentials.

WASHINGTON, Feb. 17.—The credentials of William A. Pfeiffer, senator-elect from Kansas for a term beginning March 4 next, succeeded Ingalls, were presented by Mr. Ingalls and placed on file.

### Stepniak in St. Paul.

ST. PAUL, Feb. 17.—Much interest is manifested over the lecture of Sergius Stepniak, the Russian nihilist and exile, booked at the Metropolitan Thursday evening. The advance sale has been large and indications are that standing room will be at a premium.

### DEATH IN THE SLIDE.

Playing at Tobogganing by Which Three Lumbermen Were Killed.

WELLISBORO, Pa., Feb. 17.—Charles Kolb went to work in the Cameron county lumber woods a few days ago. Logs are run from the woods to the streams by means of slides down the sides of steep hills. The logs are run in trails, sometimes coming from the woods in a continuous line a mile long and running with tremendous velocity. Kolb was working at one of these slides, and declared that he would take a ride down the mountain side on the slide, riding a hemlock slab. Kolb got on a slab and started on his foolhardy toboggan ride down the mountain slide, which was a mile long at an angle of 45°. He had scarcely started when a big trail of logs came rushing along the slide from the woods.

Although Kolb on his slab was dashed down the mountain like the wind, the velocity of the logs was so much greater that he was overtaken by the trail when he was only half way down the mountain. The head log struck the rash workman. He was hurled straight ahead through the air for 300 feet, dropping to the ground among the trees far down the slope, where he was found by his fellow workers, a limp and shapeless mass, every bone in his body being broken.

Two men, Jerome Engle and Hiram Snyder, met death in a similar manner on a slide in Elk county only a few days before Kolb was killed. Engle and Snyder both got on a slab to ride the slide in order to save them a couple of miles' walk to their destination. They were overtaken by a trail of logs. Engle was thrown clear over the tree tops on the mountain side and Snyder was cut in two by the rushing logs.

### HEMP FOR TWINE.

Home Grown Material to be Used Exclusively in Future.

CHAMPAIGN, Ill., Feb. 17.—The Empire Cordage company, of this city, claim to have substantially solved the binder twine question. One of the members of the cordage company says: "We are prepared now to manufacture all the twine for which we can obtain material. We use nothing but American hemp. I think we have now proved that there is not the slightest excuse for importing either the twine or the material to make it. We shall raise 3000 acres of hemp this year ourselves, and the farmers in this county will raise about 3000 acres more."

"The next harvest will require about 100,000 pounds of twine, and it would require about 200,000 acres of ground to produce the amount of hemp necessary to make it. We have demonstrated that the farmers can grow this hemp more profitably than they can raise corn, and its cultivation would withdraw just that much land from corn culture, aiding in the reduction of the corn surplus and thus helping the farmers in a double sense."

"Farmers all over this state, Iowa, Nebraska, Minnesota and Wisconsin give us the most unequalled assurance that hemp twine is superior to sisal or flax twine and fully equal to the best Manila. Six thousand pounds of hemp twine were used last harvest on the great way to reach the border and has an average wheat crop, and the average amount required was one and a half pounds to the acre. These twines can be made and sold more cheaply than the twine trust has ever sold twines of different fiber. American farmers can now grow the twine themselves, encourage the establishment of twine factories in the wheat-growing states, and save millions of dollars sent abroad for sisal, Manila and other foreign fibers."

### POPE ON OUR SCHOOLS.

Letter to Cardinal Gibbons Concerning Public and Parochial Schools.

ROME, Feb. 17.—Inquiries made at the Vatican today show that the pope's letter to Cardinal Gibbons on the question of public school education in the United States will be of a pacific nature. His Holiness has not yet completed the letter. He is devoting much time and study to minor subjects which the letter will touch upon.

### The Late Silver Law.

WASHINGTON, Feb. 17.—The following extracts from a letter from Seligman, Frères & Co. bankers in Paris, to Representative Hitt, of Illinois, were sent to the Senate today. The letter is a splendid law; but its beneficial effects will only be gradually felt, and not before several years have elapsed, inasmuch as \$4,500,000 per month is insufficient for the time being to prevent these artificial and periodical fluctuations. I hope and pray that a free coinage silver bill will never pass an American congress. It would positively cause, not long after its passage, ruin and desolation throughout the country. At first there would take place booms—very dangerous booms—but the end would positively be a crisis such as the promoters of free coinage have no idea of. Free coinage would be hailed with joy in Europe, France, with five and a half to six hundred millions of dollars in the bank and among the public, would feel grateful to you were the unlimited free coinage bill to become a law. You would get from France alone \$300,000,000, and that quickly. Germany has an immense stock of silver bars which you would get, so have Italy and several countries in Europe. India would send you immense amounts of silver, instead of sending the same to China. England would be greatly benefited by it. With unlimited free coinage for you, London with a gold standard, would become more than ever the centre of the world's banking business. I cannot, and no sane man in Europe can, believe that the congress of the United States will vote such a bill, with its unavoidable disastrous consequences."

### Salvationists Refused Protection.

RACINE, Wis., Feb. 17.—The clash between the salvation army and the police has again broken out and the fight promises to be more interesting than ever. The mayor and the chief of police positively refuse to give the army protection notwithstanding the fact that hoodlums disturb the meetings. Governor Peck was appealed to, and, it is claimed, has written to the captain of the army that the meetings must be protected. Last night the wife of the captain called at the police station and demanded that special police be appointed to protect them. This was positively refused. Mayor Weber and the sheriff of Racine county also refused protection. She has now appealed to citizens of Racine to help her.

### Probably Hydrophobic.

CHICAGO, Feb. 17.—Mrs. John Pesce, who created a sensation Sunday by attempting to bite her husband while on the way to the church, will be examined today at the detention hospital. She is believed to be suffering from an attack of hydrophobia.

### WORK ON THE INTAKE.

Ditch Digging at the Pump House Begun Today.

### A NEW EASTERN RAIL OUTLET.

An Expected Deal Comes to Fulfillment in the Lackawanna's New Connection.

General Manager Craig this morning started a small crew of men at work digging a ditch for the shore end of the new intake pipe. He states that the pipe, 1000 feet long, will be laid just as soon as it can be made, and that the foundry is now at work on it. It will be a new pipe from the pump well and will be laid at an angle of nearly ninety degrees from the course of the present pipe. It will be put together on shore, floated to its place and dropped, at a signal, to the bottom. It will be a larger pipe than the present one and will be made with flexible joints.

The city engineer states that in his opinion it would make the water supply more instead of better if the intake pipe were extended to a greater distance than 1000 feet from its present terminus. Soundings will be made in all directions from the present mouth of the intake pipe just as soon as this storm is over, and there will also be a personal investigation by the diver of the condition of the water and the bottom in order to discover the best position to locate the receiving point of the intake pipe.

Diver Chalk states that the condition of the water and the bottom is apparently very satisfactory around the present intake pipe after you go out beyond ninety feet from the shore. The probable direction of the new pipe laid will be southeast.

### NEW EASTERN TRUNK LINE.

Big Scheme of the Lackawanna to Reach the Northwest and Duluth.

Last summer it was stated in The Herald that the Lackawanna road would reach the Northwest by a new route, which it detailed. The statement was made on the authority of an officer of the Flint & Pere Marquette, one of the roads in the deal, who was then in the city.

The following, just sent out from Detroit, shows the deal to have been completed: A railroad scheme of mammoth proportions is about to be sprung that will have a widespread effect on trunk lines and contemplates the combination of three great roads and the building of a connecting road to the Northwest. The parties interested in this scheme are the Canadian Pacific, Lackawanna and Flint & Pere Marquette. The Lackawanna, which already has a line to Buffalo, will form a junction with the Canadian Pacific, which road has secured rights of way to reach the border and has a Detroit connection with the Flint & Pere Marquette. From there the line runs to Manitowish and Ludington on Lake Michigan and sixty miles across from Manitowish to the Wisconsin shore. From there connections are made with the Green Bay, Winona & St. Paul, the building of a fast line of freight boats to run from Manitowish to Buffalo.

Connection will be made with Duluth over the Quadra, and this morning the Green Bay & Winona a little west of Manitowish. The combine expects to handle a great deal of flour and merchandise from Duluth and Minneapolis.

### Friends May View the Hero.

NEW YORK, Feb. 17.—The family of Gen. Sherman today decided to allow friends of the hero and old war veterans an opportunity to view the body. The general looks quite natural in his last sleep, and there is but a slight discoloration and the face is but little swollen.

The black lid of the casket is a folded American flag on which the general's sword and scabbard presented to him at the close of the war by the state of New York. Candor is burning near the head of the casket.

### Explosion in Allegheny.

PITTSBURGH, Pa., Feb.—This morning an explosion occurred in a double 2-story building on River avenue in Allegheny City. The entire front was blown out, the interior wrecked, and Samuel and William

## EVENING HERALD.

Weekly, per year, 1.50

Largest Circulation in Duluth.

Persons desiring THE HERALD at their homes can secure it by postal card request, or order through Telephone No. 36. Where delivery is irregular, please make immediate complaint to the office.

Entered at the postoffice at Duluth, Minn., as second-class mail matter.

The Washington office of THE HERALD is at No. 24 New York avenue, N. W., where the paper is sent on file and where THE HERALD correspondent will welcome visitors from the Northwest.

## NOTICE.

Herald subscribers will confer a favor by arranging to pay subscriptions due upon the first call of the collectors. The Herald's delivery is so large that the necessity of repeating calls is a tax upon the time of the collectors and the cost of collection, which is very considerable in the aggregate.

## PURE WATER.

Whatever their natural resources, no tribe, no town, no city, no people can have health and prosperity without pure water in plenty, pure for poor and rich, in constant stream for all.

## The Weather Bulletin.

Metecological report received at Duluth, Minn., 8 a. m., Feb. 17, 1891.

In rain column indicates trace. One (1) inch of rain or melted snow equals ten (10) inches of snowfall. Minus (-) in temperature column indicates below zero.

W. H. FALLON,  
Sergeant Signal Corps.

DULUTH, Feb. 17.—Local forecast until 8 a. m. tomorrow: Snow; slight change in temperature.

## A TEMPORARY MAKESHIFT.

It is pleasant to announce that work on the new intake pipe has begun and that it is to be laid as soon as possible. Because of the personal congratulations of a dozen of the best known city physicians, as well as a hundred citizens, not to mention its own consciousness, the Herald feels somewhat of pride in the fact that it was the first to take up the cudgels for pure water and was the only paper that has persistently urged the necessity of a change in supply. The Tribune has also had much to say regarding better water, but the News until about a month ago denied the presence of typhoid fever in Duluth and ridiculed the labor of the other city papers.

While the sinking of a new intake pipe 1000 feet long will help, it will not cure, and what Duluth wants is a cure. Probably this extension is all that can be expected at present, but the public demand for absolute safety and a better water supply should be continued until such time as the water company, or its successor, may get a supply that is positively pure, if it has to go below Sucker bay as Capt. Yeaman has stated in The Herald will be necessary. The Herald, for one, does not intend to rest content with a 1000 feet extension.

And while on this matter it is well enough to again emphasize the question of a supply for the upper strata. No one who is a friend of the poor but will help The Herald in this campaign. As if to emphasize our remarks of last night on the lack of protection above Fourth street a fire occurred during the evening on Sixth street. There was no water except what the city fire engine pumped. There would have been no use of force above Fourth or perhaps above Third, though the city is regularly paying hydrant rental on a lot of fire plugs on Fifth street.

Here is the next place for reform in our water service. It should be demanded as soon as the company can find itself able to put it in.

## THOSE TAXES.

Readers of The Herald have been a good deal interested in the rate of taxation and tax collection at the neighboring city of Superior. They recollect that the date on which a percentage of penalty should by law have been added was on Jan. 26, that at that date only \$138,000 out of the \$735,000 of taxes had been collected, and that the city council at that date gave an extension of twenty-one days on which taxes could be paid without the addition of the penalty.

This twenty-one day was up yesterday, and the \$138,000 of taxes paid in had increased about \$125,000. The total tax collection was about \$263,000 or a third of the taxes due. This is an astonishing delinquency, and one that points a very large moral. We doubt if in all the years past Duluth has ever had a delinquency of tax collections of over 10 to 15 per cent, and here in Superior after a three weeks' extension of time the delinquency is 70 per cent. If Superior with a tax of \$735,000—\$121,000 greater than that of Duluth—can pay but a third, what will she do next year when this \$735,000 is raised to \$1,462,000? The city council is considering the question of a further delay of twenty days, all it can allow, before imposing the penalty.

Perhaps Secretary Street, of the Superior chamber of commerce, who is engaged in juggling figures, with the sanction of his chamber, to show the "Decline of Duluth" and the "Rise of Superior," which he intends to send broadcast over the land, will juggle these figures and others The Herald has lately given to show the Peculiar Progress of Superior to a proud piece as Mistress of the Lakes. The longest pole knocks the

persimmons, Mr. Street, but the largest liar isn't always believed—therefore go to.

In a very few words in reply to a Minneapolis reporter, President Eliot, of Harvard, a day or two ago indicated that in considering the movement for free trade, account should be taken of the incidental protection afforded by a tariff for revenue only. The reporter asked whether he thought this country would be as rich under free trade. "Yes," I think so," replied President Eliot. "That is, of course, under as nearly free trade as the expenses of the government will permit. You know our government is rather expensive nowadays." If this means anything, it means that we are not to anticipate the dangers of absolute free trade because it will be necessary to collect large sums at the custom houses for revenue—that we are not to have competition on equal terms between foreign and home industries. In other words, the collection of duties for revenue only must afford, incidentally, a measure of protection to home industries. If that is what President Eliot means, then he admits to that extent the actual benefit of protection. Harvard has always been a hot bed of free trade.

The Scientific American says the Siberian railroad will be completed in a few years. It will be 4200 miles long, and will bring the Eastern Russian terminus within five days of Japan. It is expected that the new road will take away from England the trade of China and Japan, and become a formidable rival of the United States for the trade we are now carrying on with these two countries. The czar is also building a railroad by way of Samarcand to drain India. It is probable that the czar is thinking more of the military value of the new roads than of the killing of anybody's trade. Competition will stimulate but not ruin the Chinese and Japanese trade of the United States and England.

The people of the Mississippi above Winona are afraid that the Weyerhaeuser boom bill will cripple navigation. Just why it can do this, when there is no navigation within a hundred miles of the river at that point, they don't explain.

## Superior Drinking Water.

Junction Vindicator Superior will not be outdone by Duluth in any feature. Last week Duluth proved that her drinking water, which is obtained from the lake about 400 feet from the shore, is a sure death to rats. This week Superior proves that her drinking water, which is obtained from the bay, is worse than Duluth's. It is not surprising that prohibition is a failure in Wisconsin, especially that portion of it around Superior.

## Treat Pictures.

New York Press: Shipbuilding in the lake district. Is that progressing under absolute protection? Here are the figures:

In 1887 there were	125 vessels built.
In 1889 there were	225 vessels built.
Additional tonnage of 125 vessels in 1887 was	56,488 tons.
Additional tonnage of 225 vessels in 1889 was	107,080 tons.
	Increase, 50 per cent.

Extend a reasonable protection to shipbuilding for the foreign service, and watch the results.

## "TONTI OF THE IRON HAND."

It is discovered after 200 years on the Illinois River.

Workmen while excavating on the Illinois river at Starved Rock a day or two ago, discovered the grave of Tonti, the great French explorer, and the iron hand which he wore. The excavation began last summer for building purposes. Skeletons of large size and mingled with mold, were fragments of what had evidently been armorial plate. The fragments were richly inlaid, and attached to them were copper rivets. Finally the discovery of the iron hand put it beyond doubt that these remains are those of the great explorer.

History mentions Tonti's iron hand, an artificial member, which took the place of the right hand which he lost in battle. The hand, which relieved of earth and dust with which it was covered, was found to be made of bronze, and had evidently once had steel joints. It was the same size as the other hand and of intricate mechanism. A cross was also found bearing evidence of the order of St. Louis, of which Tonti was a chevalier. A cross shaped silver sword hilt lay near by.

It has long been maintained that Tonti was buried at Starved Rock, although the statement of contemporaneous writers was conflicting. With this hand, which was always covered with a glove, he was able to terrify the Indians, and they came to regard it as an evidence of supernatural power. Tonti began his labors in America in 1670, and died at Fort St. Louis in the summer of 1717, after a labor of over forty years. His career was a marked example of the ingratitude of kings, as he was three times superseded by incompetent men, and at the time of his death was a neglected man, without authority, mark or token of appreciation at the hands of the government. He died in the fort for which he so long commanded, and where at the time of his death a drunken debauchee held sway. But for the respect which his former comrades held for him he would have been buried without the commonest rites. It would be a proper deed for the people of the Illinois valley to erect a lasting memorial of Henri de Tonti on the scene of his labors.

In her recent book, "The Story of Tonti," Mary H. Catherwood touchingly tells of the life and death of Tonti on the fort of the Starved Rock, and this discovery is a remarkable link to strengthen her story.

The Browns.  
Brown has a home full of girls and boys, happy and healthy and full of noise. They are brightly at work and bright at their books.  
And are good for smartness and wit and good looks.  
Brown is healthy, his wife is fair. And their faces are free from wrinkles of care.  
They need no money for powders and pills. And never a dollar for doctor's bills.

The reason that they begin in the right place, Dr. Pierce's Golden Medical Discovery, by keeping the springs of life pure, the blood free from impurities, wards off all those diseases which spring from bad blood. The use of the "Discovery" prevents liver and kidney troubles, dyspepsia, consumption or lung trouble, stomach and bowel troubles, and forestalls the beginning of disease. That is why the Browns are so healthy. It is also guaranteed to cure those ailments if taken in time and given a fair trial, or money paid it will be refunded.

## A PROTEST.

And a Ringing One Against Anything but Lake Superior Water.

To the Editor of The Herald:  
Suggestions have been made that the supply of water for the city be obtained from either Rice, Canoe or Grand lakes, which lie some ten to eighteen miles back over the hills in the woods.

Having at our very feet the purest, clearest, healthiest body of fresh water in the world, lying in its clean basin of sand, pebble and rock, it would be the sheerest folly to entertain the thought of hauling for water at those purr, warm little inland puddles, whose shores are swamps and in whose waters vegetable matters stand and decay from year's end to year's end. The water supplied the city at present may be contaminated, and if it can be proven that such be the case, let the supply point be changed; but let no one hope that by taking it from any of these little swampy lakes, a suitable exchange can be had for the glorious water of Lake Superior. Marquette publishes her grand city water far and wide, yet it is taken from this filthy Lake Superior. The truth is there is not one in a hundred of the cities of the world which is able to procure such water as can be taken from Lake Superior, yet we hear it proposed to abandon what other cities would most covet and prize and run off out in the woods in order to get that which they would be glad to be able to avoid.

Swamp water may be a specific for fever which medical authorities may sometimes endorse and prescribe, but nevertheless it would seem most rational to look for a lake in which the water most nearly approaches purity and that lake there can be no question is no other than Lake Superior. J. P. M.

## The Wholesale Shoe House.

Mr. Connolly, foreman of the Tarbox Shoe factory, of St. Paul, for over twenty years, has been engaged by Robert Fitzgerald to take immediate charge of the workmen and work in the new shoe factory to be equipped and started in the south half of the Duluth dry goods building this spring. Mr. Fitzgerald will be Western manager of the whole sale boot and shoe house here, and H. B. Parker, of Boston, still retains the general management, with his office in the East.

## On the Terrace.

A crew of rock men is at work on the terrace drive above the city, widening the road at those places where it was left narrow last fall, and are now blasting rock at the curve at the head of Fourth avenue west and have widened the road from Eighth avenue to that place. When they are done the terrace drive will be thirty feet in width everywhere.

## Two Days in Duluth.

The Twin City ticket agents are arranging the program for the national convention of the International Association of Ticket Agents of the United States and Canada, which will be held in St. Paul, Aug. 11. Two days each will be spent in Minneapolis and Duluth.

## WHY?

"EVERY EFFECT MUST HAVE A CAUSE."

We rather expected a lull in trade after the holidays, but so far such has not been the case, and it is not strange either, for the greatest Clothing event of the season is now in progress. Consider this special advantage. It isn't a sale of lots of odds and ends—not a few suits and overcoats. Everything in the store—the most desirable, the finest full dress suits, the best selling, every day suits, all our Furnishing Goods, Hats, Shoes and Rubber Goods. No reservation. Everything is sold at a straight 20 Per Cent Discount. Why? to speed the parting with this season's goods we out to cost and down below! The better now to sell at loss than not to sell at all! The money-making season now is over, but still there are piles of goods. To reduce them but one mover's work is effective. His name is—Low Price—and he's working with a will.

## CHAMBER AND COUNCIL.

A Good Deal of Business Transacted by Both.

## COMSTOCK WRITES ON COINAGE.

The Water Question the Chief Matter in the Council's Session.

At the chamber of commerce meeting this morning, a resolution passed by the county commissioners was received endorsing the action of the latter in the matter of fixing salaries of county officials.

A communication was received from Hon. S. G. Comstock as follows:

"Am in receipt of your resolutions protesting against the passage of the senate free coinage bill and favoring reciprocity with Canada. My judgment is with you on both propositions. I cannot see the justice or patriotism that would take the senatorial or profits that the government and the people derive from coining the standard dollars and giving it to the bullion owner. I agree with you on both propositions. We should be glad to extend our trade relations in all directions where profits are to be found."

A letter was received from Ernestus G. Wiman informing the chamber that the issue in the present campaign in Canada to be terminated March 5, was of far more importance to the United States than that of any issue of foreign politics heretofore. He asked the chamber to send suitable resolutions on the subject to congressmen.

At the request of the legislative committee they were empowered by the directors to make a few changes in the bill relating to county officers, namely to have the raise in salary of the judge of probate go into effect at once and the change in the salary of the clerk of the district court cannot go into effect until the expiration of the present term in four years under law, consequently the bill was changed so as to comply with that law.

The committee was not agreed upon the proposed extension of Superior street. Two of them favored the extension at once, but Alderman Perry, another member, thought it too early to make the extension.

A letter was received from M. B. Harrison desiring the chamber to invite the American Civil Engineers association to hold their next annual meeting at Duluth. T. W. Hoopes brought up the question of the changes in the proposed city charter affecting the sale of property by the city controller and thought that the chamber should investigate the provision as it would result in greatly complicating the matter of titles to real estate. Under the law nine tax judgments could be obtained on a single lot. T. W. Hoopes and the secretary were appointed a committee to look after the matter.

## LAST NIGHT'S MEETING.

Much Discussion and a Set of Resolutions Promptly Passed.

About 150 citizens crowded into the chamber of commerce rooms yesterday afternoon for the purpose of roasting the Duluth Gas and Water company. N. A. Gearhart was chosen chairman. The resolutions which appear below were put on their passage on motion of E. C. Griley who said in substance in supporting them: "The prevalence of disease in Duluth and the increase in the death rate ought to arouse the interest of every citizen. I am interested in the health of the city. I am certain that we have never been informed of the extent of the prevalence of the disease in this city. I found when I circulated the call for the meeting that almost every one that I asked to sign it had relatives or friends which had either been ill or had died of this scourge. I think the evidence conclusive as to the cause and I believe that if any other body of men except the Duluth Gas and Water company had been asked to extend their intake pipe, if there was only one bacillus found in 10,000 parts of the water, it is argument sufficient to prove that that pipe should be extended at once." He closed by urging the passage of the resolution.

W. E. Wright made a long address, bringing out facts that have heretofore appeared in print in a forcible manner. Mrs. Magie and Spicer were called on, but had little to say except that they did not believe that the deposit element of the intake pipe into deeper water at this end of the lake would be of use; the entire plant should be moved down the shore. Dr. Magie had some interesting remarks frequently. It contained facts matter, accurate, correct, paper and other sewage contents. The water was in the city mains and the deposit element had a fearful odor. Dr. Spicer remarked that it made no difference whether the water was pumped down the intake pipe or no eighteen-inch hole or a one-inch hole. A bacillus can go through as easily as the other. He believed that the intake pipe should be laid further down the north shore, and its direction into the lake should not be determined until currents and depths shall have been understood.

T. W. Hoopes, president of the city council thought it would be best to request possibilities by remedying the sewerage system as much as possible and extending the intake pipe in a direction away from the city. "The council are doing all they can as practical men," said he, "and will not cease in their efforts to remedy the evil. The fact that one sample out of four has been found to contain bacilli will not convince any far-sighted man that the water is badly infected." This last remark was greeted by loud cries from all sides, "Yes, it will!"

There were a number of other speakers, including A. T. Scoville, A. F. Rudolph, W. M. Hubbard and S. A. Thompson, and the following resolutions were adopted: Whereas, The water furnished Duluth is being taken in highly dangerous proximity to the main city sewer and to other city sewers, it has been conclusively established that the water thus furnished is contaminated with sewage, and that it is unwholesome and wholly unfit for use and consumption of the citizens and dangerous to the health and life of our citizens. The intake pipe has not been to exceed 145 feet in length from the shore and placed in water not exceeding forty-five feet in depth. It is asserted and not denied that during the whole of said period the said pipe has had a break in it within fifty feet of the shore and in about fourteen feet of water. Some of the points are loosened and admitting water straighter and strainer or hooks is broken off of the mouth. The company have neglected, and refused to remedy these defects, whereby their course has been in disregard of the health and life of our people and in total disregard of the business interests of our city, and thus in our judgment the said company has forfeited all claims to any consideration upon the part of our citizens or of the city authorities.

Therefore be it resolved, That the city council are hereby respectfully requested to take immediate steps to forfeit the said company's franchise, and further that they spare no expense in furnishing to this city an adequate supply of pure and wholesome water in the least possible time.

## BY THE COUNCIL.

It Wants to Push the Fresh Pipe Further to the Lake.

The water question formed the principal feature of last night's meeting of the council. The gas and water company presented the following:

"In view of the public agitation over the water supply, the district which many citizens live in its quality and the injury which the wide-spread and exaggerated reports are undoubtedly doing the city, this company feels that by a proper co-operation all uncertainty can be set at rest. While we are confident that the water is of excellent quality, still it might not exist in and in process of construction remain as now planned. We propose that if the city will forthwith rearrange the sewer on Fourteenth avenue east and Ohio avenue so as to conform to the original plan for the sewerage, this company will thereupon extend its intake pipe into the lake to a total length of 1000 feet, completing the same as soon as practicable."

The committee is to be kept secret until after all analyses are completed and returned to the council. The light and water committee presented a report on the communication from the gas and water company, stating that the proposition to extend the intake pipe 1000 feet in a southeasterly direction was a good one and it should be done.

Hon. Haskins of the alliance club announced that the club believed Duluth had never received any Lake Superior water, but simply St. Louis bay water, and believed if the pipe were extended 1000 feet it would make things worse than they are today. They reached this conclusion because the drainage from the lake flows into the bay and is carried through the canal by the current. The only remedy was to go farther down the lake, to Two Harbors, if necessary.

A resolution was then adopted to notify the water company to take immediate steps to enable the company to furnish the city sufficient pure water; also that the company would be held in strict compliance with the terms of its contract in this respect; that the council further approved the extension of the intake pipe 1000 feet immediately.

## THAT CHURCH COLLEGE.

The Report That Duluth People Were to Establish One Discredited.

A telegram from Excelsior, Minn., says that reports recently circulated concerning the proposed establishment of a college of the christian church at Duluth are believed by people here who know to be without foundation. The only college of this denomination in the state will be opened here in September by M. H. Tipton as president. It is to be called the Northwestern Christian college and its prospects of success are very bright. A resolution to remove it from Duluth was received but not accepted. Mr. Tipton is now here and will remain until the college opens.

So excited the jealous Excelsiorites. Perhaps Excelsior doesn't know every fact after all. Of course the only christian church school in the city will be opened there in September for it will take time to get the proposed Duluth university started.

## Dwelling Burned.

A small 2-story frame residence at Sixth street and First avenue east was badly damaged by fire last night.

It was necessary to use the steamer to get any water, but two streams were obtained. The house was occupied by two families, George Clark living on the first floor and Mathew Phillips on the second. Both saved nearly all of their household goods. Those of Clark were insured. The building was owned by J. F. O'Neil. It was insured for \$800, which will more than cover the loss. The fire started from a defective flue.

Sellers, lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000.

## WEST DULUTH.

Mrs. J. S. Griffin went to St. Paul yesterday, where she will visit her sister.

Miss Flora and Anna McLain have returned to this place.

Ole Gilson had his hand badly cut by an ax in the hands of a careless fellow workman yesterday at Mitchell &amp; McClure's saw mill.

The Mitchell-McClure company is relieving eight to fifteen car loads of piling every day.

The Ladies Guild of the Episcopal church will meet with Mrs. Reeves Thursday.

Mrs. Kessner was brought before Justice Noff yesterday on a charge of excessive cruelty to a little girl, and pleaded not guilty. A hearing will be had this afternoon.

G. W. Clark, of Atkinson, proprietor of Clark's patent clothes reel, is in the city superintending the construction of reels by the West Duluth Manufacturing company.

Arthur Smith, brother of F. C. Smith, and a prominent banker of Plandreau, S. D., is in the city. Mr. Smith is much pleased with the town and will stay with his brother several days.

Euclid Lodge, A. F. A. M., will hold its regular convocation tonight.

W. H. Stowell, while driving across the bay with a load of wood, broke through the ice and one of his horses was killed. It was a narrow escape for the driver and remaining horse.

R. C. Brophy was called to Chicago last evening by the sudden death of his son.

The Scandinavian union held its regular monthly meeting last evening and received several new members. The union will parade in force this evening before going to Duluth to attend the organization of a lodge at that place.

The monthly aid society of the Presbyterian church will meet with Mrs. S. Williamson Thursday afternoon.

Granite division uniform rank of the Knights of Pythias was inspected last evening by Assistant Inspector Gen. Austin, after which the annual election of officers was held and the following were elected: Captain, Harry Morgan; lieutenant, W. W. Browne; herald, Mr. Jeffrey; guard, George Toor; sentinal, D. Johnson; recorder, F. Noff; treasurer, Charles Martz. Mr. Austin found the division in excellent working order and commended the members on their work and appearance highly. Installation of officers will occur at their armory next Monday evening.

Wanted, a bargain on Central avenue. We have a purchaser for same.

WILLIAMSON &amp; McCORMICK, Central avenue, West Duluth.

A four-room tenement for rent on Third avenue west. Apply to G. F. Danforth, steam laundry, West Duluth.

For sale—A seven-room house, all furnished, within three blocks of the St. Paul &amp; Duluth depot, West Duluth, cheap and on easy terms. Address A. 15, Herald, Duluth, Minn.

WEST END.

The funeral of Mrs. Elizabeth Smith, of 2705 West First street, took place this afternoon.

The Historic Hatchet.

We take the hatchet for our text, because tomorrow is the anniversary of the birth of George Washington, and the legend of the hatchet is inseparably connected with the memory of the great man. And yet these matters-of-fact people, who go patiently mousing around among old documents and records, say the pretty story is not true; and so another cherished belief is shattered. "Did the hatchet" remains an emblem for a truthful man (when it does not suggest the bad Indian with his tomahawk) though a good many of our fellow citizens have evidently "buried the hatchet," as it does not appear as a sign over their doors. Railroad men are supposed to have no use for the hatchet, as a trade-mark—except the agents of "The Burlington," who have no need for anything but the truth in detailing the advantages and attractions of the Northwest for confirmation, or write to W. J. C. Kenyon, Gen. Pass. Agent, C. B. &amp; N. R. R., St. Paul, Minn.

Read and profit by it.—I have been a great sufferer for some time from indigestion. I tried Salvo's Oil and it gave me entire relief. JOHN H. JOYNS, Deputy Inspector, Tobacco Warehouse, S. Duluth.

SOME OF OUR CLAIMS.

## WORLD OF COMMERCE.

Cash Wheat and Futures on the Duluth Market.

## MONEY MARKETS IN THE EAST.

Leading Speculative Commodities in All the Leading Markets of the World.

The market today ruled very dull here and somewhat irregular. The opening was firm with buyers at from 1/2c to 1/4c above yesterday's close and with very little for sale. Prices were bid up another 1/4c before any trading was done. No trades took place until an hour and a half after the opening. In the last hour the market was flat and prices sagged off on the weakness manifested in Chicago. The demand was mainly for the May future.

The tendency here after the bulge of trading in the forenoon was toward a bearish crop news. Hutch was reported a heavy buyer of May and July futures. May ruled the most active in No. 1 northern grade which closed with a flurry of sellers at 95 1/2c. It started at 96 1/2c and gradually sagged off to 95 1/2c and 50c selling in lots of 40,000 bu for 95 1/2c and 25,000 bu for 95c. In the last fifteen minutes it lost 1/4c. May 1 hard was offered freely just before the close at 95 1/2c and closed with sellers but without transaction. Wheat on track sold early at 94c for No. 1 northern and 91c for 2 northern. Cash in store closed without transactions as did also the February future. The loss of May wheat was about 1/2c from the best figures of the session.

The closing prices today were as follows:

	Cash	Feb. 1	May
No. 1 hard	95 1/2	94 1/2	95 1/2
No. 1 northern	95 1/2	94 1/2	95 1/2
No. 2 northern	91	90 1/2	91 1/2

Cars on track: Wheat, 37; last year wheat, 62. Receipts: Wheat, 35,500; Oats, 334 bu. Shipments: Oats, 334 bu. Inspection: Cars No. 1 hard 11; No. 1 northern, 12; No. 2 northern, 1; No. 1 white winter, 1 total, 25.

## Local Bank Clearings.

Bank clearings today were \$285,198.15; and for the same day last year they were \$181,557.30.

## New York Stocks.

Reported by Lewis & Bill, commission merchants and stock brokers, Phoenix building.

## Minnesota Wheat.

MINNEAPOLIS, Feb. 16.—Closing quotations: No. 1 hard February, 94 1/2c; on track, 95c; No. 1 northern February, 92c; March, 92c; May, 94 1/2c; on track, 93 1/2c; No. 2 northern February, 91c; on track, 91 1/2c; July closed at 90c.

## Chicago Close.

Following is the close: Wheat: Easy; cash, 94c; May, 97 1/2c; July, 99 1/2c; corn, No. 2 steady; cash, 51 1/2c; March, 51 1/2c; May, 53 1/2c; July, 52 1/2c.

## New Scandinavian Lodge.

A lodge of the Scandinavian union was organized at Scandinavian hall last night. Delegates were present from Ashland, Tower, West Duluth and Superior. A parade with two brass bands was indulged in by the visiting members. The new branch starts out with forty-three members, and prospects of success.

## Making a Home.

(From Harpers Bazar.)

It seems a pity that the young woman who is about to establish a home and has a sum of money to spend for its furnishing cannot be persuaded from laying it out at once. She robs herself of so much future enjoyment. The cheap and spurious sets of furniture which are carelessly ordered from an upholsterer, and carried home and stood around her parlors by her men, will never afford her half the satisfaction she can get in a room for which today she buys a chair, and next week, seeing there must be a table to accompany the chair, she starts on a fresh shopping excursion, and finds a table which is exactly what she was looking for; and in another month, discovering the need of a bookcase or a screen, she has again the delight of a hunt, and the gratification of obtaining the prettiest screen and bookcase in the city.

Such a room is a growth, a gathering together of household treasures little by little and piece by piece. Each article, bought only when the need arises, or when something is happily found to just meet the need, will have a family history which makes it an entertaining as well as a valuable possession. Each couch and footstool is an achievement; each rug and curtain represents a triumph. Such a home, built up gradually, with thought and loving consideration in all its details, acquires a meaning far deeper than could be purchased by the longest purse from the most fashionable cabinetmaker.

## Children Cry for Pitcher's Castoria.

Pure cod liver oil of my own importation direct from Norway, for sale at C. J. Tuttle's drug store, 1303 West Superior street, Duluth, Minn.

Fits, spasms, St. Vitus dance, nervousness and hysteria are cured by Dr. Miller's Nervine. Samples free at Max Wirth's.

Highest of all in Leavening Power.—U. S. Gov't Report, Aug. 17, 1889.

## PERSONAL.

Miss Kate Hardy, of the Hardy school, was in Chicago several days this week. Andrew Jackson, jeweler, had a telegram yesterday from the Cunard line announcing the arrival of his father, John Jackson Sr., with his wife and daughter per the Galatia at Liverpool, on Feb. 2. John Jackson is senior partner of John Jackson & Co., of Glasgow, Scotland, one of the largest, oldest and strongest Scotch wheat houses. Mr. Jackson, who had been visiting his son, enjoyed his visit here.

F. W. Hammond was married today in Dakota.

Oliver Harris is able to be around the house after a long illness. Mrs. Pierce, of Seattle, is visiting her daughter, Mrs. F. J. Breeze.

Wm. and Alex. Macrae leave today for an extended visit to their old home in Scotland.

Mr. and Mrs. G. H. Prudden entertained a number of their friends last evening at their cozy home in Lakeland.

Word received from Miss Susie Stearns states that she is in Germany having a delightful time.

Mrs. E. L. Dean leaves tomorrow for Chicago.

Mrs. Geo. F. Scherer, of Chicago, is visiting her parents, Mr. and Mrs. H. A. Thompson, at their home 317 West Fifth street.

J. W. Norton has gone to Chicago.

T. H. Larke is in Minneapolis on business.

Edmund Sherwood is back from Galveston on a short trip.

Hon. W. K. Rogers returned from Ohio this morning.

Eugene Holton is taking an extensive trip through the Western states and territories. He will be gone about two months.

J. D. Ensign will return today from California.

## A Successful Party.

The first dance under the auspices of the Retail Clerk's association was held last night at Masonic hall. Nearly 200 people graced the occasion and a very pleasant evening was passed by all. Those under whose direction the affair took place feel most pleased. Over \$120 was cleared, which will be used by the association in its charitable and other work.

## NOTICE TO STOCKHOLDERS.

NOTICE.—There will be a meeting of the stockholders of the National Bank of Commerce at their banking house in Duluth on Tuesday, March 2, 1891, at 10 o'clock a. m. for the purpose of voting on the question of increasing the capital stock of said bank to three hundred thousand dollars.

B. W. MATTER, Cashier.  
Duluth, Feb. 18, 1891.

## TO ALL WHOM IT MAY CONCERN.

Notice is hereby given that an application has been made to me by Edgar W. Markell, under the provisions of Chap. 42, General Statutes, 1890, and acts amendatory thereof, for a deed of all the following described lands situate in the county of St. Louis and state of Minnesota, to wit:

So much of lots 81, 82 and 84 East Clinton street, in "Duluth, formerly called Portland," as lies within the limits of lot 3 and 4 in block 19, of the Portland division of Duluth.

So much of lot 10 West street, in Duluth, formerly called Portland, as lies within the limits of lot 8 in block 28 of the Portland division of Duluth.

So much of lots 51, 52, 53, 54, 55, 56, 57 and 58 East Dick street, in Duluth, formerly called Portland, as lies within the limits of lot 12 in block 3 of the Portland division of Duluth.

So much of lots 61, 62, 63, 64 and 65 East Drew street, in Duluth, formerly called Portland, as lies within the limits of lot 1 and 2 in block 5 of the Portland division of Duluth.

So much of lot 56 East Johnson street, and of lot 61 East Drew street, in Duluth, formerly called Portland, as lies within the limits of lot 1 in block 13 of the Portland division of Duluth.

So much of lots 57 and 58 East Greenlee street, in Duluth, formerly called Portland, as lies within the limits of lot 1 and 2 in block 101 of the Portland division of Duluth.

So much of lot 51 East Austin street, in Duluth, formerly called Portland, as lies within the limits of lot 2 in block 113 of the Portland division of Duluth.

So much of lots 38, 39 and 40 West Perry street and of lots 41 and 42 West Dick street, in Duluth, formerly called Portland, as lies within the limits of lot 11 in block 111 of the Portland division of Duluth.

So much of lot 4 West Drew street and of lot 7 and 11 West Johnson street, in Duluth, formerly called Portland, as lies within the limits of lot 12 in block 113 of the Portland division of Duluth.

So much of lot 28 East Greenlee street, in Duluth, formerly called Portland, as lies within the limits of lot 2 in block 119 of the Portland division of Duluth.

So much of lots 30 and 41 West Johnson street, in Duluth, formerly called Portland, as lies within the limits of lot 11 and 12 in block 123 of the Portland division of Duluth.

So much of lot 4 East Greenlee street, and of lot 5 East Austin street, in Duluth, formerly called Portland, as lies within the limits of lot 10 in block 131 of the Portland division of Duluth.

So much of lots 62, 63 and 64 West Capitol street, in Duluth, formerly called Portland, as lies within the limits of lot 5 and 6 in block 17 of the Portland division of Duluth.

Said application will be heard before me at chambers, room 508, First National bank building, in the city of Duluth, Minnesota, on the 4th day of March, 1891, at 9 o'clock in the forenoon.

And it is ordered that notice of such application and hearing be given by publication hereof in the "Duluth Evening Herald," once in each week for three successive weeks prior to said day of hearing.

Dated February 9, 1891.  
O. P. STERNES,  
First Judge, District Court,  
Eleventh Judicial District, Minnesota.  
Cash & Willard, Attorneys,  
Feb. 10-17-24.

## SUMMONS, MONEY DEMAND COM. PLAIN FILE.

County of St. Louis,  
District Court, Eleventh Judicial District,  
Townsend W. Hooper, plaintiff vs. Julia M. Benson, and John J. Benson, defendants.  
The State of Minnesota, to the above named defendants:

You are hereby summoned and required to answer the complaint of the Plaintiff in the above entitled action which is filed in the office of the Clerk of the District Court of the Eleventh Judicial District in and for the County of St. Louis and State of Minnesota, and to serve a copy of your answer to the said complaint on the subscriber at his office in the First National bank building in the City of Duluth, in said county, within twenty days after the service of this summons upon you exclusive of the day of such service; and if you fail to answer the said complaint within the time aforesaid the plaintiff in this action will take judgment against you for the sum of fifty hundred (\$500) dollars, with interest thereon at the rate of eight per cent per annum from the 18th day of May, 1891, less the sum of sixty-three (\$63) dollars (\$63.00) paid on account of said interest together with the costs and disbursements of this action.

Dated January 14th, 1891.  
WALTER AYERS,  
Plaintiff's Attorney, Duluth, Minn.  
Jan 30 Feb 6-13-20-27-Mch 6-13.

## R. C. MITCHELL'S LIST

Amongst a large amount of the property in my hands for sale, the following SPECIAL BARGAIN LIST is recommended to the attention of the public:

## INSIDE PROPERTY.

Lot 11, block 66, Portland \$300.  
" 4, " 19, Duluth, 200.  
" 12, " 20, " 200.  
" 12, " 47, " 100.  
" 12, " 25, " 200.

Several improved lots on Fifth and Sixth streets at bargain.

Lots in West Duluth. Two lots and now six-room house on Bay View Heights, \$1000—only \$800 cash; balance on time from one to six years.

A large number of Second Division lots—some of them improved.

## MINNESOTA POINT.

Lots 28, 34, 40, St. Louis avenue, Lower Duluth.  
23, 24, 30, 38 and 57, Minnesota avenue Lower Duluth.

54, 56, 58 and 60, St. Louis avenue, Upper Duluth.

## THIRD DIVISION.

Lot 168, block 42, Third Division, \$1000.  
" 110, " 200.  
" 110, " 200.

## HILL PROPERTY.

Lots 94 and 96, block 95, on brow of the hill and line of Seventh avenue, west cable cars. Price a view as any in the city.

## ST. LOUIS COUNTY LANDS.

40 acres in sec. 25-14-18.  
20 acres in sec. 25-14-18.  
20 acres in sec. 25-14-18.

SW 1/4 of sec. 25-14-18 at 100 per acre.  
SW 1/4 of sec. 25-14-18 at 100 per acre.  
SW 1/4 of sec. 25-14-18 at 100 per acre.

## DOUGLAS COUNTY LANDS.

Several choice lots in tracts in sec. 25-14-18, just suited for dairymen or gardeners—at from \$10 to \$100 per acre.

Most of this property is offered below the market price and on very reasonable terms—on one-third to one-half cash, and the balance on from one to two years and some of the prices are certainly great "bargains." For particulars as to any particular piece, call on

R. C. MITCHELL,  
608 Chamber of Commerce

## 1891.

## HARPER'S MAGAZINE, ILLUSTRATED.

The important series of papers on South America, by Theodore Child, will be continued in Harper's Magazine during the greater part of the year 1891. The articles on Southern California, by Charles Dudley Warner, will also be continued. Among other noteworthy attractions will be a novel by Charles Egbert Coudstock; a collection of original drawings by W. M. Thackeray now published for the first time, a novel written and illustrated by George du Maurier; a novelette by William Dean Howells and a series of papers on London by Walter Besant.

In the number and variety of illustrated papers and other articles on subjects of timely interest, as well as in the unrivalled character of its short stories, poems, etc., Harper's Magazine will continue to maintain that standard of excellence for which it has been so long distinguished.
